## TECHNOLOGY

### INFORMATION TECHNOLOGY FOR THE PRIVATE DENTAL PRACTICE

Dental practices face unique challenges with information and technology. Making sure dental practice equipment and technology are working in harmony is a crucial part of keeping your practice thriving.

Goetze Dental's Information Technology Team specializes in integrating dental equipment and technology and supporting the dental IT environment. Goetze HelpDesk Agents are experts in Dental Technology HIPAA compliance. As a full-solution dental practice IT provider, we provide both stand-alone solutions and managed services for private dental practices in the Midwest.

→ Learn more at [goetzedental.com](http://goetzedental.com) or call 800.692.0804, option 7 for a FREE IT Practice Evaluation.

 Welcome to the family.

## ABOUT

Goetze Dental is a family-owned business serving private dental practices just like yours since 1884.

We work to understand your goals and dreams and strive to provide the best dental supplies, equipment, technology and service.

We believe the best patient care is delivered in the private practice.

### OUR COMMITMENT TO PRIVATE PRACTICES

100% of our energy and resources will continuously center on the products and services we offer to the privately held dental practice through integrity, education, innovation and customer service.

We stand united with the artists, the scientists and the explorers of the dental community, whose interest in providing exceptional patient care never fades.

## SUPPLIES

### DENTAL SUPPLIES

As a clinician, you are driven to provide the best care possible for your patients. Choosing dental supplies is a vital component in that care. We partner with the top manufacturers in dental so you have the products you need, when you need them.

Ideal For:

- Occlusal registration
  - Copying transfers
- Primary impressions with bite trays

## High Performance Bite Registration Material

Formulated to have a light, mousse-like consistency ideal for occlusal registration, copying transfers and primary impressions with bite trays. Our material has excellent durometer or hardness preventing distortion in disposable trays, specifically the triple trays. Unique our Bite Registration approaches zero resistance allowing for unmodified natural movement of the jaw. The non-flowing, thixotropic formula stays in place and will not drip, run, or sag.

### Bite Registration Kit w/Tips - 50ml

Each pack contains (2) 50ml cartridges & (6) 6.5mm mixing tips

- 3 brush heads
- 1 year warranty

SonicTouch Toothbrush ..... **578048**  
Ea **\$45.83**

### SonicTouch Refill Brush Heads

The rubberized brush head is designed to protect tooth enamel. The brush conforms to the contours of

your teeth for effective, deep cleaning. High quality DuPont bristles promote naturally whiter teeth by gently polishing off surface stains, end rounded.

Pkg/2 ..... **578049**  
Ea **\$7.36**

# Optimize Tissue Recovery Time with an Anti-Bacterial Endodontic Sealer

Advance Dental Products **Bioceramic Endodontic Sealer** combines the proven advantages of **MTA (Mineral Trioxide Aggregate)** with a superior canal obturation product. Our bioceramic sealer is as biological as the actual pulp tissue, and is engineered to penetrate, fill, and seal main and lateral root canals. The 13% MTA based sealer maintains an optimal pH, which elicits anti-bacterial effects and encourages new tissue formation and recovery.

- Provides rapid recovery of tissue without causing inflammatory reaction
- Avoids tooth stain and discoloration; eugenol and bismuth oxide free
- Easy to use dual syringe automix
- Easy removal for retreatment
- No need for low temperature gutta percha cone use standard heat settings for warm vertical
- Working Time: 23 minutes, Set Time: 130 minutes

Up to  
**20% - 40%**  
savings over comparable  
leading brands  
per gram!

## Work with Advance Taper and Advance Taper HT NiTi Rotary Files

### Tri Auto ZX2

by Morita

- » Cordless micromotor with built-in apex locator
- » Apical patency by rotary instrumentation
- » Now possible with rotary files as small as 10#
- » Observe the file tip position with apex locator function

577194 - Tri Auto ZX2

EACH  
**\$2399.00**

### Endo-Mate TC2 Cordless Endodontic Micromotor

by NSK

- » Cordless endodontic handpiece with torque control
- » Large LCD panel
- » Access friendly Key, Auto Reverse and Alarm Function
- » Apex locator capability
- » Contains: MP-F16R Head, Motor, and Charger

571894 - Endo-Mate TC2 Cordless Endodontic Micromotor

EACH  
**\$1338.00**

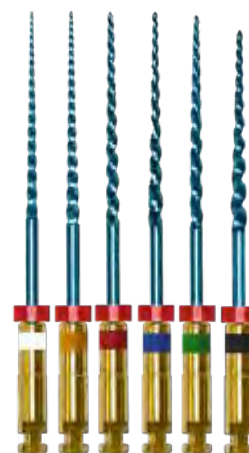

**NSK**

## More Flexibility for Half The Cost

- Same sizes, lengths and tapers enable you to use the same protocol or technique you use with Vortex™ Blue and Edge Sequel™ Sapphire file systems
- Creates reproducible access and predictable canal patency
- Increased torque strength for safe and predictable canal navigation while the unique design enhances tactile experience
- Guide files polish dentin surfaces for easier identification of hidden canals

### Impression Material - Putty

This hand kneadable addition cure silicone material is an ideal tray material for a 2-step putty/wash technique. This easy to mix, non-oily material when cured hardens to a high durometer which helps resist distortion and provides excellent hydraulic force when combined with a light body material.

Putty Kit contains:

- 300 mL Base Jar
- 300 mL Catalyst Jar.

**Ea \$8.25**

## College Pliers

Our college pliers can be used to grasp gauze or other materials from the tray or oral cavity. Precision tips and our two-stage guide pin ensure accuracy and prevent glove punctures when closed.

# FINANCING YOUR DENTAL OFFICE DESIGN PROJECT

BY INGA PAUL

Equipment specialists plan an important role in the dental office design project. Their expertise is not just limited to their knowledge of equipment. Equipment specialists like Bart Miller lend a hand in nearly every aspect of the planning process.

“Bart is way more than an equipment specialist. He is a financial advisor, a design consultant, a project manager, and sometimes acted as a counselor for me. He was absolutely instrumental to the entire project,” says Dr. Roy Reinerman, whose practice employed Goetze Dental for a new office build-out in 2016.

Financial concerns are often top of mind for doctors and play a major role in shaping the rest of the project. Common questions include:

- How risky is it to take out a loan?
- What does the application process look like?
- Will I have to use personal assets as collateral?
- What can I afford while remaining profitable?

## REVIEWING YOUR FINANCIAL HEALTH

Preparing for financing should start well before plans for a project are even finalized. For many doctors, the first question they have is, “Can I afford this?” To answer this question, you need to look at the financial health of your practice from every angle. This is not unlike the health checkup you give to new patients. You should look at your financial books, but also the day-to-day operations of your practice.

Here are some key metrics to look at when conducting a financial review of your practice:

**Profit and Loss Statement.** A practice’s bottom line is the most important number when it comes to financial health. Look at your practice’s revenue, costs, and expenses to determine your net profit. Most banks will want to see at least a 1-year P&L, but prefer two or three years.

**Fee Schedules and Pricing.** The way you price your services will clearly have an impact on your bottom line. Fee schedules for different dental procedures are well-documented by a national database of fees that are broken down by zip code. Most practices find the sweet spot for fee schedules is between the 70th and 80th percentiles.

---

WORKING WITH YOUR EQUIPMENT SPECIALIST AND AN EXPERIENCED

---

BANKER, DOCTORS CAN SIGNIFICANTLY REDUCE YOUR FINANCIAL RISK WHILE

---

ENSURING YOUR NEW PRACTICE WILL RETURN THE PROFITS YOU EXPECT.

---

---

OUR PHILOSOPHY AT GOETZE DENTAL IS THAT THIS IS THE CLIENT'S  
BUSINESS, NOT OURS. THEY NEED TO BE 100% COMMITTED AND  
COMFORTABLE WITH AN IDEA BEFORE WE PROCEED.

---

**Hygiene vs. Dentistry Ratio.** What percentage of your work is hygiene vs. dentistry? This ratio can say a lot about the health of your practice. Too much dentistry and your patients may be routinely missing their recare. Too much hygiene and it could mean that treatment acceptance requires some attention. The ideal ratio of hygiene to dentistry is 40/60.

**Production vs. Collections.** This is a look at how revenue is distributed between insurance payouts and fees. Tracking this metric ensures you stay cash flow positive to run the practice day-to-day.

**Booking Schedule.** How far out are you booked? Ideally, you want to stay scheduled out 4-6 weeks. If you have appointments scheduled further out than 6 weeks, you risk cancellations and lost business. If you're scheduled out less than 4 weeks, you might need to grow your patient base. Being booked too far out is a good indicator that it's time to expand your practice.

**New Services.** Offering new, high-demand procedures is a great way to serve your patients and generate more revenue. Like your booking schedule, plans to add new services is a good indicator that it's time to expand your practice.

Goetze Dental equipment specialists try to ask the same questions a bank underwriter is going to ask so you can be prepared for the financing process. Once you're comfortable with the outlook, we will recommend an experienced banker for you to work with. However, it is always up to you whether or not you want to move forward with a project.

If you give the green light, the next step is to apply for financing.

## APPLYING FOR A LOAN

Banks are generally favorable towards dental practices because of their stability and low percentage of loan defaults. Still, we recommend working closely with banking professionals with experience in financing dental practices. Your equipment specialist is also an invaluable resource. They can help you prepare to meet with the banker so you can get the best terms possible.

When you're ready to explore financing, follow these steps:

### 1. CHOOSE TRUSTED PARTNERS

Goetze Dental has built strong relationships with dentist-friendly banking services, and you can tap into these relationships by working with us for your equipment and design needs. Our clients get premium rates and faster application turnaround times from many of our banking partners.

### 2. UNDERSTAND YOUR OPTIONS

Every practice is different, and therefore each financing scenario will be unique. Before committing to anything, be sure you understand all of your financing options. A few things to consider are:

**Financing devices.** Typically, doctors choose one of two financing devices: a loan or a line of credit.

**Loan structuring.** One common concern for doctors is the risk associated with taking on financing. Banks that specialize in dental practices understand your unique circumstances and offer beneficial loan structuring to reduce risk. This could mean lower interest rates, longer payment terms for smaller monthly bills, and 100% financing without pledging personal assets.

**Special Programs for Dental Practices.** Some institutions offer unique programs just for dental practices. Commerce Bank has the Fast Track Dental Loan program that offers a hassle-free pre-approval status for equipment loans. Bank of America Practice Solutions has the Practice Heartbeat Program, a two-year program for practice owners that provides ongoing financial, marketing, and business support.

**Renting vs. Owning.** If you're moving offices, a big question to consider is whether to rent your office space, purchase an existing structure, or build one to suit your needs. In some cases, buying the space can make financial sense. Not only do you have complete control of the space, you have the options of including additional storefronts to rent out to other tenants. This provides you with additional revenue sources on top of the appreciating property value.

### 3 APPLICATION

If you've prepared for the financing process and have the right partners on your side, then the application process is relatively easy. Your application will be submitted as part of a larger financial package that includes two or three years of tax returns, your year-to-date P&L, and other financial information.

At this stage, it may be time to involve your CPA to fill out the more financially complex parts of the application process. This leaves you with just two or three pages of personal and professional information to complete.

### 4. APPROVAL

After the application has been filled out, everything will go to the financial underwriters for review. The approval process can take anywhere from a couple of days to a few weeks. Once the results are in, you can discuss options with your equipment specialist about moving forward with the project.

Keep in mind that you don't have to wait to apply for a loan until you're absolutely ready to begin your dental office project. In fact, many financial experts recommend applying for a loan before you absolutely need it. This way, your plans are not derailed by surprise results.

## GETTING STARTED WITH FINANCING

At Goetze Dental, we've cultivated strong relationships with some of the most trusted financial institutions in the region. Not only do we help you secure better rates and faster approval times, we will also help you navigate the entire process.

Get started on building your dream dental office today by going to Goetze Dental Financial Services or contacting your local Goetze Dental representative.

Our Goetze Dental Design Build teams have worked with private practices for over 50 years and have learned what works and what doesn't. Our goal is to help you build the office of your dreams, one that will grow with your practice so you can reach your personal and professional goals.

### HERE ARE TWO TOOLS TO GET YOU STARTED

1. Visit [GoetzeDental.com/guide](https://GoetzeDental.com/guide) and download the complete Dental Office Design Guide
2. Download your Dental Office Design Planning Guide workbook at [GoetzeDental.com/checklist](https://GoetzeDental.com/checklist)

## Ivory® ReLeaf™ Minis

by Kulzer

Smaller leaf mouthpiece for the top-selling ReLeaf hands-free HVE solution

**Patient: Comfort and control for a more relaxed experience**

- » Patient controls fluid buildup and removal to minimize risk of choking and gagging
- » Patients can communicate without affecting suction
- » 25% smaller leaf, available in fun color choices
- » 86% of patients rated ReLeaf as comfortable or very comfortable

**Practitioner: From sealants to restorations, access ergonomic efficiency for every procedure**

- » Maintains a dry field, with 280 degrees of suction
- » Work in all 4 quadrants with ergonomic comfort and full view of oral cavity
- » Improves clinical outcomes by allowing uninterrupted focus

**Practice: Time-savings for increased practice productivity**

- » Works with your existing ReLeaf hose and connectors — no new kits to purchase
- » Seamlessly connects to existing high-volume evacuation systems in less than 60 seconds
- » Up to 15 minutes of time-savings per patient, translating into hundreds of daily production dollars

### MINIMIZES AEROSOLS AND AIRBORNE CONTAMINANTS

As recommended by the ADA and CDC, aerosol contaminants and splatter should be minimized by the use of a high-volume evacuator. The use of an HVE has been shown to reduce contamination arising from the operative site by more than 90%.

# FEATURED PRODUCTS

## OMNICHROMA

by Tokuyama Dental

Many dentists have experienced and appreciate the benefits of saving time and money with the world's first one-shade universal composite OMNICHROMA. Now, the same benefits are made available in a flowable consistency to address more restorative needs.

### OMNICHROMA Flow

Utilizing Smart Chromatic Technology and uniformly sized supra-nano spherical fillers, OMNICHROMA FLOW is the world's first one-shade flowable composite to esthetically match every color of tooth from A1 to D4 with a single shade of composite. Its high strength and wear resistance make it suitable for a wide range of indications beyond cavity lining and minor restorations, giving clinicians the freedom of choice for nearly all direct restorations.

#### BENEFITS TO CLINICIANS

- » Increased efficiency – saving time and money
- » Simplified inventory management
- » Reduction of composite waste
- » Never run low on composite shades ever again

#### OUTSTANDING FEATURES

- » Unprecedented shade matching
- » High polishability
- » High stain resistance
- » Flexural and compressive strength suitable for a wide range of indications
- » Low wear and abrasion
- » Low polymerization shrinkage

#### INDICATIONS

- » All cases of direct anterior and posterior restorations
- » Cavity base or liner
- » Repair of porcelain/composite

OMNICHROMA Flow  
581770 - 3g Syringe

EACH  
**\$65.52**

### OMNICHROMA BLOCKER Flow

Supplementary material designed for use in large Class III or IV restorations as well as special cases that require masking of stain.

#### INDICATIONS

- » To improve shade adaptation and preventing OMNICHROMA FLOW from picking up the darkness of the oral cavity
- » To mask staining or discolored imperfections
- » To reconstruct a highly opaque tooth

OMNICHROMA BLOCKER Flow  
581771 - 3g Syringe

EACH  
**\$65.52**

## Critical Cover® Pfl® N-95 Particulate Respirator Niosh Approved Respirator

By Alpha Pro Tech Inc

### FEATURES & BENEFITS

The Positive Facial Lock® (PFL®) N-95 Particulate Respirator meets the World Health Organization (WHO) and the Centers for Disease Control (CDC) recommended protection levels (where applicable) for many airborne contaminants. NIOSH Approved, the N-95 delivers the appropriate amount of filtration efficiency and when combined with a trio of patented and unique design features, also delivers the user a comfortable, custom fitting facemask. The integrated Magic Arch® technology creates a breathing chamber within the facemask by holding it away from the user's nose and mouth. The PFL technology, incorporating an integrated Twist Seal® chin piece, helps the wearer create a perfect fit every time. This 8" fluid resistant Particulate Respirator is Made in the USA.

## Powecom KN95 Personal Respirator

By Powecom

The Powecom KN95 personal respirator, is an FDA authorized respirator face mask made of a multi-layer filtration system of non-woven breathable fibers and is utilized globally.

### MATERIAL:

- » 46% non-woven polypropylene, 28% melt-blown fabric, 26% ES hot air cotton.
- » Ear loops/Headband: Latex free
- » Nose piece: Adjustable metal

### FEATURES:

- » Construction: Multi-layer filtration system of non-woven soft and breathable fibers.
- » All respirators manufactured after May 20th, 2020 are affixed with an anti-fake sticker that can be used to verify authenticity.

### CARE AND USE:

- » Keep the face mask clean before use. Do not touch the rear side of the face mask.
- » Do not wash the face mask with water. Water will destroy the filtering ability and protective nature of the mask.
- » Do not steam the face mask or put it in the microwave.
- » Keep the face mask away from vapor, oils, chemicals, paints, liquid, acid, and alkaline objects.
- » Make sure to discard the face mask when it becomes visibly dirty or breathing resistance increases remarkably.

## Intelligent Simplification using CLEARFIL MAJESTY™ ES-2 Universal

Before/after case by  
Michael Morgan DDS  
Smiles by Morgan

### What is CLEARFIL MAJESTY™ ES-2 Universal?

- ✓ Light-cure, radiopaque resin composite
- ✓ Proprietary nano-filled composite filler and highly refractive matrix
- ✓ Simplifies Class I and II posterior restorations

### What are the Benefits?

- ✓ Eliminates the need for an opaquer or blocker
- ✓ Integration of unique Light Diffusion Technology
- ✓ Simplified single shade selection without a shade guide
- ✓ Efficient and comfortable procedure
- ✓ Fewer steps for consistent, predictable results
- ✓ Appealing outcomes that last

# Solmetex™ Proudly Introduces the

## Enroll today, be compliant tomorrow

In response to the EPA Dental Rule, Solmetex is excited to introduce its proprietary **Solmetex Maintenance Program**. A program designed as a turnkey solution to alleviate guesswork associated with the regulation to ensure your practice is always in compliance. Enrollment enables real-time access to all your practice's documentation and recycling activity online 24/7/365, access to documents that a local inspector may request at any time.

The Solmetex Maintenance Program covers the **four main components of the EPA Dental Rule** that offices are required to have to maintain compliance:

### Hg5 Series of Collection Containers with Recycle Kit

**NXT Hg5  
Collection Container**

with Recycle Kit

Item # **NXT-HG5-002CR**

**Hg5 [Legacy]  
Collection Container**

with Recycle Kit

Item # **HG5-002CR**

- The only collection container approved for use with the NXT Hg5 Amalgam Separator
- Clear by design for easy visual inspection
- Simple change-out process when solids reach the full line or at 12 months, whichever occurs first.
- Packaging and shipping approved by the US DOT.
- Certificates of Recycling housed and available 24/7 in the Solmetex Compliance Center

### PowerScrub™ Vacuum Line Cleaner

#### PowerScrub™ Vacuum Line Cleaner Case Kit

Item #

**PCS-VLCK**

- Per EPA regulation requirements, formulation consists of a neutral pH level between 6 and 8.
- Case kit includes four 64oz bottles.
- Recommended for use with the NXT Hg5 Amalgam Separator
- Maximizes capacity of the NXT Hg5 collection container.
- Compatible with all competing amalgam separators
- Compatible with all dry/wet vacuums
- Works at all water temperatures

### Practice Waste Solutions Amalgam Bucket

#### PWS Amalgam Waste Buckets

1.25 Gallon Bucket	Item # <b>PWS-AB-1</b>
2.5 Gallon Bucket	Item # <b>PWS-AB-2</b>
3.5 Gallon Bucket	Item # <b>PWS-AB-3.5</b>
5 Gallon Bucket	Item # <b>PWS-AB-5</b>

- Designed to address the "dry waste" requirements of the EPA Dental Rule
- Per EPA regulation requirements, clearly labeled for amalgam waste.
- Available in four (4) sizes
- Cost of PWS amalgam bucket includes cost of shipping and recycling.
- Certificates of recycling available 24/7 in the Solmetex Compliance Center

### Solmetex Compliance Center

- Available 24/7/365
- Recycling History
- Certificates of Recycling
- Certificates of Installation
- Certificates of Warranty

Participation in the Solmetex Maintenance Program is accompanied by a **non-contractual**, automatic fulfillment program for all the products and technologies necessary to ensure compliance with the EPA's regulation on the proper handling of amalgam waste within the dental practice.

**3M™ RelyX™ Universal** Resin Cement &  
**3M™ Scotchbond™ Universal Plus** Adhesive

# The two that can do it all.

3M™ RelyX™ Universal Resin Cement works both as a standalone, self-adhesive cement — and as an adhesive cement together with 3M™ Scotchbond™ Universal Plus Adhesive. The adhesive serves as an universal primer for all materials and covers all direct and indirect bonding indications.

Eliminate the hassle and confusion of multiple resin cements, primers and adhesives and simplify your direct and indirect restorative workflows. Less products to keep on stock and replenish. Saves space, time and money.

-  **First radiopaque all-in-one universal adhesive**
-  **Further boosts bond strength of RelyX Universal Resin Cement**
-  **Fully aligned system: adhesive cured by cement, no light-cure needed**
-  **Universal primer for all restorative materials**

1. Per application compared to currently available standard automix systems.  
2. On average.  
3. Compared to currently used automix syringes.

**Mix-N-Match Product Offers**  
Valid April 1 – June 30, 2021

**3+1** Buy Any 3,  
Get 1 Free!\*

OR

# CHALLENGE ACCEPTED.

Nobody thought a bulk fill flowable was possible. Until we invented Surefil® SDR flow+ material. Today, we **redefine restorative materials again with Surefil one™ restorative**, transforming how dentists manage challenging clinical situations where isolation is difficult or when patient compliance is an issue.

- **Self-adhesive**—no separate adhesive step needed
- **Unlimited depth of cure**—no layering of composite materials, making it faster than a traditional composite restoration, **especially in compromised cases.**

**Surefil one™ restorative. Progress where you need it most.**  
For more information, visit [www.dentsplysirona.com/surefilone](http://www.dentsplysirona.com/surefilone)

# HUFRIEDYGROUP INTRODUCES **HARMONY™**

## SCIENTIFICALLY PROVEN ERGONOMIC SCALERS AND CURETTES

Designed with TrueFit™ Technology, the optimized shape with double helix grip reduces pinch force up to 65%<sup>1</sup>. Its optimal proportions and ideal width provides a secure and nimble grasp, which may alleviate hand fatigue and injury risk due to repetitive motions. All Harmony™ scalers and curescutes have EverEdge™ 2.0 working ends, ensuring you have sharp, long lasting blades to efficiently remove calculus while applying less pinch force when holding the handle.

# EDDSON™

## PRACTICE MANAGEMENT SOFTWARE

MEET EDDSON

Simplify the way you work.

# Intelligent Designed around the way **you** work

EDDSON is engineered around the way you *actually* work to deliver efficiency and effectiveness in your busy day.

## Tabbed Browsing

Never lose track of where you left off with tab-based interface, which allows you to effectively organize and manage multiple activities and quickly toggle between active tasks.

## Static Primary Controls

Quick, easy access to the most used functions from a heads-up set of primary controls. You won't have to back track, close open activities, or otherwise navigate to multiple screens to access function buttons and controls.

## Nested Controls

Nested controls simultaneously engage in different tasks, in separate patient records, so that you can be treatment planning in one patient record while processing a payment in another, or any other variety of activities.

## Intelligent

Intelligence baked into EDDSON anticipates what you might want to do next, and pulls up related information that could be useful in whatever task you're working on.

# Performance

## Informed business decisions and higher quality patient care through dynamic data

### PEAKS Dashboard

Critical business and patient care data and summary information are always at your fingertips with the Practice Efficiencies and Key Statistics (PEAKS), built directly into EDDSON.

### Accounting & Reporting

Manage profit-impacting areas such as Accounts Receivable, Open Claims, and Patient Recare with dynamic and interactive tools, rather than static reports.

### Improved Patient Care

Effective management of clinical and treatment related activities ultimately helps you deliver a higher level of patient care.

### Usability & Speed

You deserve a software solution that works as hard as you do. State-of-the-art Microsoft database tools and technology help EDDSON deliver functionality and performance that is unmatched by most practice management applications.

### Cloud Support

Built in, Cloud-Based Support avoids the frustration of the typical telephone matrix - you need help in the present.

**EDDSON™**  
Simplify the way you work.

“ EDDSON's tools have been instrumental in helping our office maximize production and collection while at the same time helping to reduce our accounts receivable and outstanding claims numbers.

EDDSON's advanced accounting capabilities and reports as well as the intuitive dashboard have not only increased awareness but have helped our team better understand the ins and outs of running a dental practice.”

Jessica, Office Manager, Kansas City, MO

“ Things we appreciate most include the ease of scheduling, treatment posting and planning, as well as finding patient information at a glance. My personal favorite is EDDSON's multi-tasking capabilities –particularly when working on time consuming tasks like bulk insurance checks. The ability to open or toggle to another task and not lose where you were is a huge time saver.

We were worried about the conversion to new software but our implementation specialist and the EDDSON support team did a great job of helping our staff through the transition. Without hesitation - we would recommend EDDSON to any office and especially anyone looking to improve the efficiency of their practice.”

Grace, Office Administrator, Humboldt, IA

“ We have been with EDDSON since the early days and can say first-hand, they are always looking for ways to help dental offices improve their efficiency, patient outreach, practice analytics, and so much more. We appreciate having the help-desk on standby for any questions and feature feedback! As a small family business, we love knowing who we are working with and they truly help to ensure our practice's success!”

Kim, Practice Administrator, Jefferson City, MO

“ EDDSON is the most user-friendly software we've ever used. It's easy to navigate and offers many advanced feature for scheduling, accounting, and reporting that are needed for a large practice like ours.”

S. Huckabee, DDS, Kansas City, MO

“ I have had EDDSON Practice Management Software for 4 years. I love how user-friendly the software is. The training and tech support are amazing. Clinically, EDDSON has everything I need and more.”

N. Medley, DDS, Independence, MO

## ABOUT US

Goetze Dental is a family-owned business serving private dental practices just like yours since 1884.

We work to understand your goals and dreams and strive to provide the best dental supplies, equipment, technology and service.

### We believe the best patient care is delivered in the private practice.

100% of our energy and resources will continuously center on the products and services we offer to the privately held dental practice through integrity, education, innovation and customer service.

We stand united with the artists, the scientists and the explorers of the dental community, whose interest in providing exceptional patient care never fades.

### Notice about PPE and Infection Control Supply Availability and Purchases

As we work through the changes brought on by the pandemic, we are committed to doing what's best for you and your team, and the entire community of privately-owned dental practices we serve, as well as for our employees.

We continue to work closely with our manufacturing partners to provide accurate and current information.

Due to the continued global demand for PPE and other infection control supplies, orders for these supplies will not be guaranteed for delivery and are subject to backorder status, allocation of amounts and/or cancellation. Orders placed cannot be canceled or returned.

**Please reach out to your private practice specialist or call customer service at 800.692.0804 with questions.**
