Dental Amalgam Alloy
Dispersed Phase High Copper
by Quala

A dispersed phase high copper amalgam alloy containing both lathe-cut and spherical particles. Outstanding physical properties and easy to control during packing. Self-activating capsules. Approximate metal composition: 41.5% silver, 30.5% tin, 28% copper.

Features

- » High Early Strength
- » Self-Activating Capsule
- » Color-Coded Capsules

Benefits

- » Reduces early breakage
- » Requires no pinching or twisting to open. One-step trituration without the use of an activator tool
- » Easy differentiation between spills

Fast Set - Work Time: 2:00 minutes / Set Time: 5-6 minutes

554934 White
554935 Assorted Colors

Enzyme Ultrasonic Tablets

For general purpose ultrasonic cleaning, evacuation system cleaning, and instrument presoak. Effective, fast removal of blood, food particles, compounds, and other soils which are normally resistant to detergents alone. Two tablets make one gallon of solution. Saves storage space, and easy to use. Clean mint scent.

071776 - 64/Box **\$49.78/Box**
3 @ \$48.78/Box

Triple Enzymatic Evacuation Cleaner

Non-foaming formula cleans evacuation systems and deodorizes as it cleans. Triple enzyme formula (Protease; Amylase; Lipase) dissolves organic fluids and debris to restore maximum performance to system and hoses. Neutral pH formula leaves a clean, fresh scent.

564304 - 1 Quart (32oz.) Concentrate **\$16.60/Btl**

Enzymatic Detergent Concentrate

Enzymatic detergent, presoak and evacuation system cleaner safely digests and removes blood, protein, tissue and soil from dental instruments, equipment, linens, clothing and evacuators. Concentrated solution mixes with water. Pleasant spearmint scent.

072345 - 1 Gallon Concentrate **\$34.26/Btl**

FEATURED PRODUCTS

TempoCem® ID

by DMG America

TempoCem ID is a non-eugenol esthetically-oriented temporary cement that is readily detectable, even below the gum line. Formulated for optimal transparency, TempoCem ID will never impact the shade of the provisional, making it ideal for both posterior and anterior restorations.

- » Easy one-piece removal of excess cement
- » Ideal for long-term temporaries (up to 6 months)
- » Will not stick to instruments
- » Invisible under restorations, yet detectable for excess removal

572506 - TempoCem ID 5mL Syringe with Tips

Hu-Friedy AIR-FLOW Handy 3.0 Portable Units

by Hu-Friedy

The AIR-FLOW handy 3.0 portable air polishing units enable dental practitioners to efficiently, safely and comfortably perform air polishing treatments in any operator. Simply connect the AIR-FLOW handy 3.0 device to your dental unit for a simple, convenient air polishing experience.

AIR-FLOW Handy 3.0 Perio

- » Specially created for subgingival applications
- » Perio handpiece with Perio-Flow nozzles remove subgingival biofilm in pockets up to 5mm deep
- » Same great design and features as the standard handy 3.0

AIR-FLOW Handy 3.0

- » Use for supragingival applications
- » Lightweight device allows for optimal clinician comfort
- » Slim handpiece is easy to grip and rotate

Call your Goetze Dental Sales Representative for pricing and information.

OptraSculpt® Next Generation & OptraSculpt® Pad

by Ivoclar Vivadent

This modeling instrument facilitates working with composite materials, reducing adhesion of the composite to the instrument for efficient and easy contouring.

OptraSculpt® Pad:

- » Indicated for anterior restorations
- » Foam pad attachments for non-stick, smooth surface contouring
- » Two pad sizes for efficient contouring of direct veneers and large-surface class III and IV restorations
- » Reference scale on the instrument handle for recording the axis alignment and width of the anterior teeth

OptraSculpt® Next Generation:

- » Indicated for posterior restorations
- » Three attachment shapes for the professional creation of natural tooth anatomy; ball tip for adaptation of composites, pointed tip for professional contouring of composites, chisel for creation of proximal marginal ridges
- » Optimum working angle for the posterior region
- » Hygienic storage container for easy access to attachments

573529 - OptraSculpt® Next Generation & OptraSculpt® Pad System Kit **\$155.00/Kit**

574039 - LeCloth Wipes Reusable Canister **\$3.99/Canister**

MI Paste® ONE

by GC America

MI Paste ONE is a two-in-one application (toothpaste and MI Paste Plus®) containing RECALDENT™ (CPP-CAP) and fluoride. This product presents another way to treat sensitivity, remineralize tooth enamel and prevent white spot lesions. MI Paste ONE is designed to be gentle to the tooth but with high cleaning efficacy.

- » Sodium Lauryl Sulfate-free
- » Releases bioavailable calcium, phosphate, and fluoride as much as MI Paste Plus®
- » Fights caries, rebuilds enamel, and relieves sensitivity
- » Low abrasivity (RDA 64)

573876 - MI Paste ONE Fresh Mint 10/pack

BEST OF 2017

Foundation®

by Morita

Collagen-based Bone Filling Augmentation Material

Foundation® is a revolutionary bone augmentation material for use after teeth extractions. Collagen-based, it provides support for implants, bridges, and dentures. Immediately following an extraction, Foundation is placed into the socket. The surrounding cells and capillaries infiltrate Foundation. As the extraction socket heals, it is filled with new augmented bone. Foundation is shaped in "bullet" form for easy placement. It is available in both small and medium sizes.

- » Stimulates bone growth
- » Implants may be placed as early as 8-12 weeks
- » Bullet shaped for easy placement in extraction socket
- » Available in two sizes, small and medium
- » Can be trimmed or shaped for a better fit

Foundation is available in both small and medium sized bullets individually packaged in a sterile container.

- 224510 - Foundation - Small (Includes 10 units)
- 522523 - Foundation - Medium (Includes 5 units)
- 569433 - Foundation - Assortment Pack (Includes 3 units each of both small and medium)

PeriAcryl®90 High Viscosity Oral Tissue Adhesive

by Glustitch

PeriAcryl®90 is a cyanoacrylate tissue adhesive that has become a popular product in oral surgery. This dental adhesive is designed to perform specifically in the oral cavity. PeriAcryl®90 is an ideal blend of n-butyl cyanoacrylate and 2-octyl cyanoacrylate that give the formulation the perfect set of properties to function on soft oral tissue. PeriAcryl®90 is intended to attach dental dressings such as COE-PAK™ to intact gum tissue and/or tooth enamel to help keep dressings secure and in place for up to two weeks.

Filtek™ One Bulk Fill Restorative

by 3M

You choose it for speed. Now it's more esthetic, too.

Filtek™ One Bulk Fill Restorative a simple one-step placement restorative material.

Designed for the posterior, its optical properties and increased opacity give you the simplicity of one-step placement without compromising esthetic results. With excellent adaptation and handling, it can be placed in a single increment up to 5 mm—no need for layering or expensive dispensing devices.

3M's true nanotechnology results in superior wear resistance and excellent polish retention.

- » Fast and easy one-step placement
- » Increased opacity for improved esthetics
- » Stress relief to enable up to 5mm depth of cure
- » Excellent adaptation and handling
- » No need for layering or expensive dispensing devices
- » Excellent handling and sculptability

SecureFit™ Protective Eyewear, 200 series

by 3M

Feel the difference as soon as you put them on. Temples automatically self-adjust to provide a secure, comfortable fit each time.

3M™ SecureFit™ Protective Eyewear is designed to diffuse pressure over the ears, so the glasses automatically adjust to the head and facial features of the wearer. Weighing less than 1 ounce, the durable, snug-fitting, flexible nature of SecureFit™ offers a more comfortable and personal fit than old-fashion "one-size-fits-all" glasses. The snug fit also keeps the glasses securely in place, eliminating the need for frequent repositioning of the glasses. The clear, anti-fog coated polycarbonate lens absorbs 99.9% UV.

- » Polycarbonate lens absorbs 99.9% UVA & UVB. Meets the requirements of ANSI Z87.1-2010
- » Contemporary and lightweight, weighs less than 1 ounce
- » Molded nose bridge
- » Self-adjusting feature eliminates need to stock multiple frame sizes

572284 - Clear, Anti-fog Lens\$2.42 Each

572387 - Gray, Anti-fog Lens\$2.60 Each

OptiBond™ Universal Single Component Universal Adhesive by Kerr™ Restoratives

More effective enamel etching than other single component adhesives

OptiBond™ Universal is a single-component light cure adhesive, providing excellent adhesion to a variety of surfaces and substrates for both direct and indirect applications. OptiBond™ Universal can be used in all etching techniques, including: Self-Etch, Total-Etch and Selective Etch mode.

Using Kerr's proven GPDM adhesive monomer and filler technology, OptiBond™ Universal delivers excellent penetration into dentinal tubules, giving you extraordinary bond strength and protection against microleakage and post-op sensitivity. Its unique nanoetching capability delivers more effective enamel etching than other single-component adhesives, creating a deeper etched surface for higher mechanical retention.

OptiBond™ Universal contains a Ternary Solvent System that includes alcohol, acetone, and water.

- » Water for enhanced etching and wetting
- » Acetone is for enhanced stability
- » Alcohol contributes to compatibility and prevents phase separation OptiBondUniversal.com

3M™ Fast Release Varnish

by 3M

Studies show the longer fluoride varnish is in contact with the teeth, the more effective it is. However, we know patients aren't always compliant after dental treatments. Often it's because they're simply too busy. That's why we created 3M™ Fast Release Varnish. It releases most of its fluoride in the first 2 hours, so you can deliver a dose of quick protection ... because once they walk out your door, life takes over.

- » It goes on fast
- » It tastes good
- » It's virtually invisible with a smooth coating
- » They don't need to wait to eat or drink after application

3M™ Fast Release Varnish—50 Pack

Each 50 Pack includes: 50 unit-dose packets of the same flavor. Each unit-dose packet contains 0.4ml of varnish, 1 applicator brush and 1 dispensing tray.

50/PACK
\$101.65

- 573242 - Mint Flavor
- 573244 - Strawberry Flavor
- 573245 - Caramel Flavor

3M™ Fast Release Varnish—200 Pack

Each 200 Pack includes: 200 unit-dose packets of the same flavor. Each unit-dose packet contains 0.4ml of varnish, 1 applicator brush and 1 dispensing tray.

200/PACK
\$325.50

Axess™ Low Profile Nasal Mask

by Crosstex and Accutron

AXESS TO HARD-TO-REACH AREAS

The mask's low-profile design provides unencumbered mouth access while its small, lightweight scavenging system is easy to work around, enabling clinicians like you to deliver excellent, efficient care to more patients.

AXESS TO GREATER PATIENT COMFORT

The mask is available in three sizes and fits snugly without tape or uncomfortable tubes protruding into the patient's nostril to maximize patient comfort – and minimize your team's exposure to ambient nitrous oxide gas. The lightweight scavenging system further minimizes drag and pull, enhancing patient comfort.

AXESS TO EXCELLENT CARE – AT A LOWER COST

Translucent so you and your staff can visually monitor your patient's breathing, each Axess mask comes individually wrapped for greater infection control – and at a cost that's significantly lower than that of other competing single-use disposable nitrous oxide/oxygen masks.

*Requires a Scavenging Circuit. Ask your sales rep which scavenging circuit works with your office.

Ivory® ReLeaf by Kulzer, LLC

ReLeaf is an HVE System that connects easily to existing dental vacuum systems and provides easy, efficient, hands-free dental suction during dental procedures. It allows patients to move their head and even communicate while maintaining effective suction. Importantly, ReLeaf caters to a wide range of patients by fitting in a wide array of dental anatomies. Rather than relying on the shape of the arch or the orientation of the teeth, ReLeaf uses the cheek and vestibule area for support.

New Haven Dental is located in New Haven, Missouri, a picture-perfect town of about 2,000 residents. In such a small town, you might think that a dental practice with seven operatories would be more than sufficient to meet the needs of the community. As it turned out, towards the end of 2015, it became clear to Dr. Jenifer Moser that her business was exceeding the office’s capacity. After weighing several options, she decided buying land and building her dream practice was the best path forward.

BUILDING THEIR DREAM

That’s when Dr. Moser and New Haven Dental turned to Goetze Dental. They had heard about Goetze Dental Equipment Specialist Bart Miller from Dr. Melissa Smith and her husband, Lance. Dr. Moser and her husband, Darrel, interviewed Bart to learn more about what Goetze Dental Co. could offer. Not long after, Dr. Moser and Darrel were introduced to Erik Wendel, the Goetze Dental sales representative. He explained the evolution of the relationship best:

“ They started looking at me as someone who had a lot of good advice instead of someone who just sold dental supplies. And the same with Bart [Miller]. There was a lot of good give-and-take, and they appreciated the expertise that we brought to the table.”

Dr. Jenifer and husband, Darrel

ENTRANCE

Just inside the front doors, there is an interior vestibule with benches so people can sit and wait for their ride after an appointment.

WAITING/ RECEPTION

The decor in the reception area was chosen for its light, friendly feel, which reflects the practice's personality. The upholstery on the chairs is stain resistant and easy to clean, and also incorporates colors used in other areas of the office. A children's play area is perfectly in view of the seating.

In August 2016, New Haven Dental purchased land down the street from their local bank. This same bank financed the project. Using a local bank instead of a big bank was no coincidence. It was important to Dr. Moser to have the support of the community, while at the same time giving back by contributing to the local economy.

Darrel Moser, Dr. Moser's husband, served as the general contractor for the project. He explained,

“ For the building process, we were able to hire friends of ours who work in construction to help us build our dream.”

OUT WITH THE OLD, IN WITH THE NEW

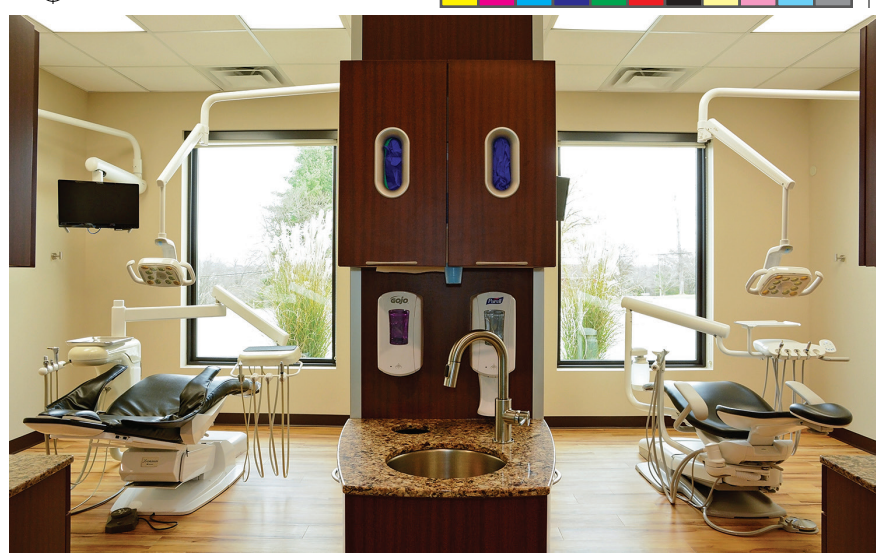

Just as important as the space they were building was how the space would be furnished. Bart Miller of Goetze Dental served as the equipment specialist. As a former member of the U.S. Air Force, Dr. Moser values efficiency and attention to detail. Miller brought that and more to the table. “Bart was excellent. Very knowledgeable. He would sit down with us and go through everything. He's a numbers guy, as well,” explained Dr. Moser. For her part, “she took the time to go through the process and really look at the benefits and features that she could use effectively in her practice and then configure her practice accordingly,” said Miller.

Both Miller and Wendel accompanied the Mosers on a trip to A-dec. Dr. Moser was originally planning to bring all the old equipment (dental chairs, lights, etc.) from their previous space, but once they dug into the numbers, they realized that it would be a good idea to invest in new equipment.

DOCTOR'S OPERATORY

Patients cannot stop oohing and aaahing about the comfortable, new A-Dec dental chairs in the doctors' operatories. Another upgrade: the A-Dec Radius Mount LED Lights, “which allows us to see more clearly and provide better dentistry,” said Dr. Moser. “Everything is so well set up we don't have to go far to get anything. You barely have to turn your body to get things because it is set up ergonomically.”

Their equipment was old and dated, so it made sense to furnish the new office with new equipment. “A-dec’s reputation is phenomenal. Once we went there, we knew it couldn’t get any better,” Dr. Moser explained. “I thought I could bring my old doctor’s stool and have it reupholstered, but then I sat in the A-dec stool and it was amazing how it felt for me. I don’t have to twist and turn as much, and it’s just so much better for my health and back. And as for the rest of the equipment and process, it’s so smooth when I’m working on patients.” In the end, they only brought over three chairs from the old space. Wendel stated,

“ We talked about what Jenifer wanted to accomplish. To have everything streamlined and to look like it all goes together, we wouldn’t be able to bring along old equipment. We wanted to create something that would serve her practice for the next twenty years.”

LONG-TERM VALUE

Goetze Dental is focused on providing long-term value to dental practices by going above and beyond and by guiding clients toward their goals. The project with New Haven Dental is a perfect example of this.

“ Geotze is now the only supplier we use. They are just amazing! Erik and Bart are extremely good to work with, and they’re always trying to help us in any way they can to make our practice better. They really care about how we are doing,” said Dr. Moser.

Goetze is invested in long-term business relationships, which often develop into real friendships after working closely on a big project. “My wife and I both feel like they are personal friends of ours now. They’re just good people,” said Mr. Moser. Miller and Wendel had kind words for Darrel, too. “Darrel Moser was the most

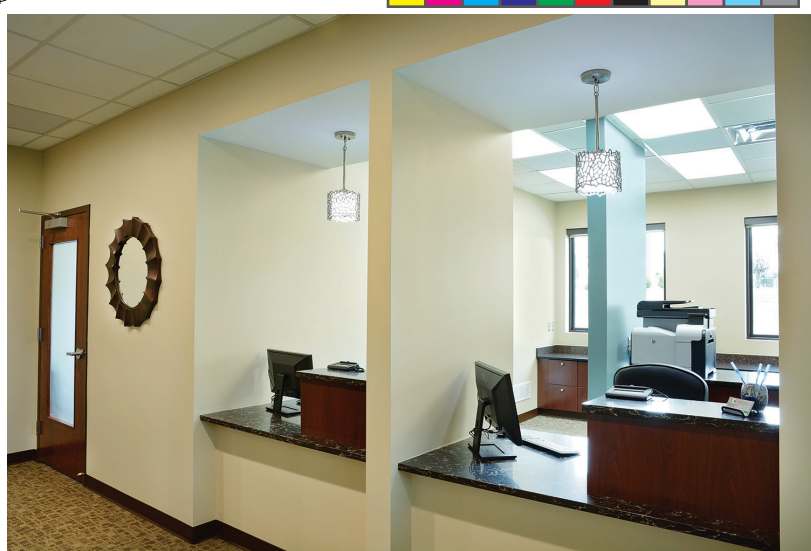

HYGIENE OPERATORIES

In the new office, New Haven Dental has a total of four hygiene rooms, and they house the only old equipment that was brought over from the old office: three Belmont chairs. You can see one here on the left, while a new A-Dec chair is on the right.

HYGIENE OPERATORY HALLWAY

The simple clarity of the office’s organization is apparent when viewing or walking through the hallway on the hygiene side of the office.

DOCTORS OPERATORY HALLWAY TO CHECKOUT

The doctors' operatory hallway features six full-equipped operatories. The pass-through cabinetry between the hall and the rooms has nitrous plumbed in. The cabinets also house computers, with monitors that swing into any position for the comfort of the doctors. The mobility of the monitors means that fewer repeated movements (and fewer aches and pains) for Dr. Moser and her team members Dr. Nicole Matthews and Dr. Jay Pontious.

affable, easy-going, hard-working builder. He was a joy to work with. He was a lifesaver, very focused on getting the job done. It was really impressive."

Wendel went on to say that for a dental practice located in such a small town to need to expand from seven operatories to ten is a testament to Dr. Moser's reputation and skill. It is also illustrative of New Haven Dental's place in the community. They are clearly proud of the work they do and the services they provide. The new office opened in June 2017, and the Mosers say they wouldn't change a thing. It is spacious and comfortable, with lots of natural light streaming through big windows.

“ My patients were so happy and excited to get over to the new space. I haven't heard a single complaint from anyone, only really positive feedback. Our whole team was also excited about the process and absolutely love the new building. The whole community has been happy about it and very, very supportive.”

CHECKOUT

The original fixtures Dr. Moser ordered online for the checkout area were a disappointment when they arrived in the mail, so with only a few days to procure new ones, she headed to St. Louis and found these modern, appealing LED fixtures at a residential lighting shop.

STERILIZATION

Sterilization is one of Dr. Moser's favorite parts of her new building. The A-dec make-ready station, part of the Custom Sterilization Center, is both intuitive and stylish. The engineering behind the overall workflow of the sterilization cabinetry has proven to be a boost for Moser's practice.

PAN ROOM

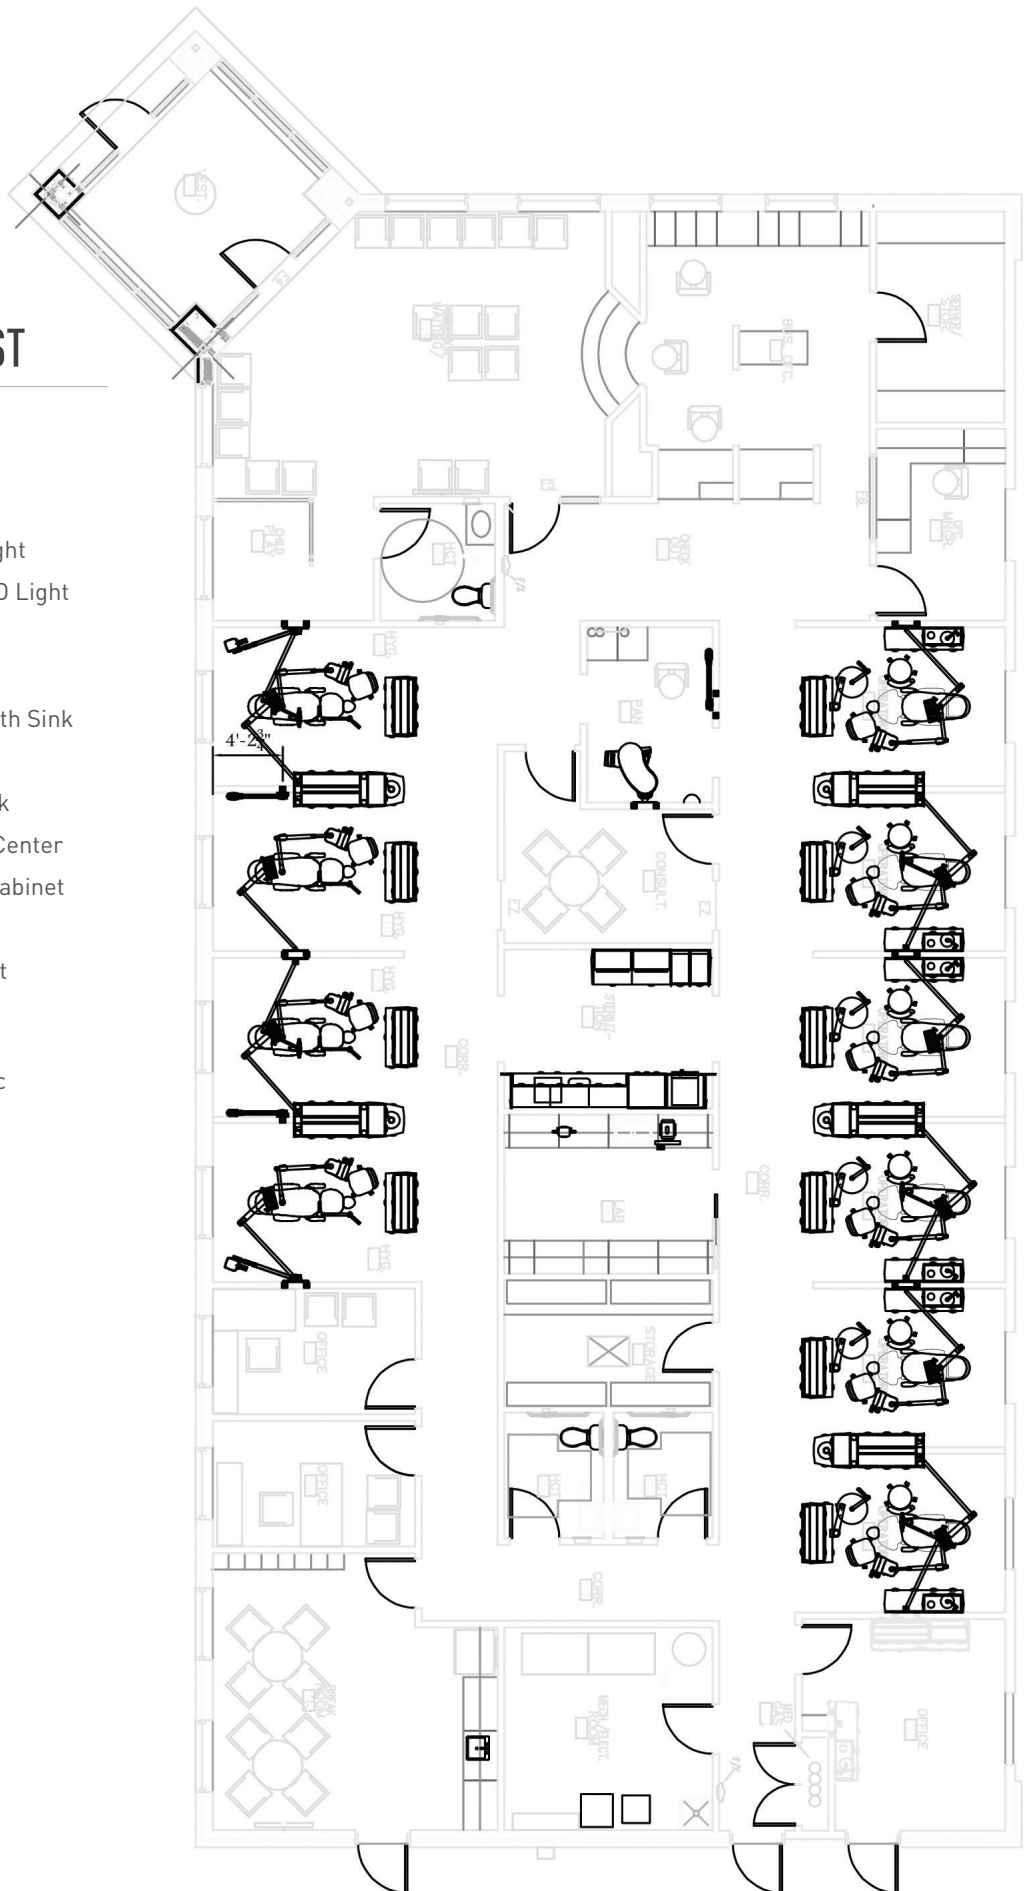

The doctors are thrilled about their new Planmeca ProMax 3D Panoramic. In their previous office they had a very old Pano machine—film converted to digital—but it was nothing compared to the imaging they get now. The doctors like how diagnostic the machine is—catching issues that would otherwise be missed.

CONSULTATION ROOM

The team is getting used to implementing the consultation room, as they've never had one before.

Make gray go away.

6 Tips to Prevent Gray Market and Counterfeit Product Risks

1. Look carefully for authorized channels.

Only buy products from 3M authorized distribution channels. And always vet new dealers that solicit your practice.

2. Be wary of hard-to-reach businesses.

Avoid businesses that make it hard to talk to a real person or who are not upfront about how they can be contacted.

3. Distributor questions? Ask us.

If you have a question about whether a distributor is legitimate, please contact 3M directly and ask. Call 3M Customer Care at 800-634-2249 or check our website.

4. Avoid deals that are "too good to be true."

They usually are.

5. Train your staff to buy smart.

Train your staff to know who they are buying from, and to avoid compromising quality in their pursuit of cost reduction. Give them a list of your favorite brand's authorized distributors. Teach them to work with authorized distributors to find offers that work for your budget.

6. Keep the idea of cost reduction in perspective.

Saving on your supply expense is minor when you consider the value of your business and your reputation.

TempoCem ID

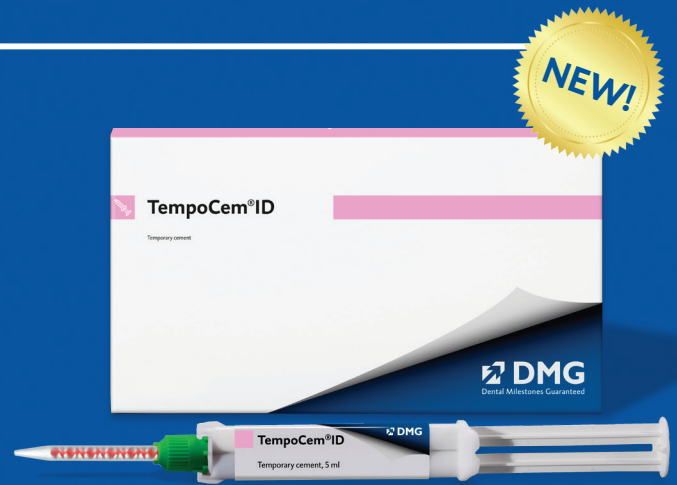

Buy 2 TempoCem ID, Get 1 Free!!!*

New TempoCem ID delivers standout performance by blending in. This esthetic-oriented, temporary cement is invisible under restorations, yet detectable for easy clean-up of excess; Invisible and Detectable (ID). Formulated for optimal transparency, TempoCem ID will never impact the shade of your provisional, making it an ideal choice for both posterior and anterior restorations alike.

TempoCem ID \$71.08 ea.

572506....1-5ml Handheld Syringe, 10 Smartmix Tips

- Invisible under restorations, yet detectable for excess removal
- Beautiful esthetics thanks to optimal transparency
- Easy one-piece removal of excess
- Optimal adhesion with easy removability
- Eugenol-free formulation
- Excellent ease of use; no sticking to instruments
- Flows and mixes easily for ideal handling

TempoCem ID
Invisible under the restoration
Detectable for easy cleanup

Luxatemp Ultra

Buy 3 Luxatemp Automix, Get 1 Free!*

Luxatemp set the benchmark as the ultimate provisional material. Now, the best just got better with Luxatemp Ultra. Incorporating proprietary nanotechnology, Luxatemp Ultra contains industry-leading flexural strength – the true measure of provisional stability and long-term durability.

Luxatemp Ultra \$221.27 ea.

StatusBlue

Buy 3 StatusBlue, Get 1 Free!*

StatusBlue is an alginate replacement material that has a firm consistency for slump-free tray dispensing, sets quickly for greater patient comfort and stays dimensionally stable. It is the faster and easier alternative to alginates for creating situation impressions for temporaries, model-cast dentures, orthodontic models and opposing jaw models. The unique viscosity allows it to flow better under bite pressure, so it captures exceptional accuracy and detail.

StatusBlue Automix Canister

7 + 1 FREE 50ml Cartridges, 16 Automix Tips
135100 \$152.80 ea.

StatusBlue MixStar

1-380ml Cartridge, 10 MixStar Mixing Tips
135105 \$115.83 ea.

*To receive free goods, please fax your Goetze invoice to DMG America at 201-894-0213, or email to freegoods@dmg-america.com indicating shade of free good. The most popular shade will be shipped unless otherwise noted. Each qualifying purchase must be submitted on one invoice. Promotion cannot be combined with any other offer and may change or be discontinued at any time without notice. All offers must be redeemed within 30 days of purchase. Limit 5 offers per dental office. Visit www.dmg-america.com or call 800.662.6383 for more information.

TPH Spectra® ST Universal Composite Restorative

Introducing TPH Spectra® ST, the composite that excels in what matters most to you. Thanks to new SphereTEC™ filler technology, our proven formula has been made even better.

- **Optimized handling.** Non-sticky, high and low viscosity options with improved sculptability and slump resistance.
- **Simplified shading.** Full coverage of the VITA¹ shade range with just 5 shades.
- **Improved durability.** Excellent stain resistance with faster finishing, high polish, and 60% higher wear resistance.

NEW

Enhance® mini Finishing System

Coarse when you need it,
fine when you want it.

The Enhance Finishing System accomplishes the entire process of excess removal, contouring, and finishing simply by varying the pressure. Push harder to remove excess composite, ease it off for final results. In just one step the Enhance Finishing System delivers a smooth, contoured surface with a natural looking finish. It's all about pressure. **Finish in one step.**

The new, smaller shapes of Enhance mini finishers offer improved access and versatility especially on smaller restorative surfaces.

For more information visit www.class2restorations.com

*Free goods same as purchase. Free goods must be of equal or lesser value than least expensive product purchased. Purchase must be made from Goetze Dental between 1/1/18 and 3/31/18. XTS® COMPOSITE INSTRUMENTS

GOLDSTEIN #3 FLEXI-THIN
TNCIGFT3

W3
TNPFIW3

The dark Aluminum Titanium Nitride coating creates an extremely hard, smooth surface which more easily resists composite materials

Visibility is exceptional with the high contrast between the dark tip against the materials and tooth structure

#13 (FOR LOWER MOLARS)
RDCM13AX

#212 (FOR ANTERIORS)
RDCM212X

#W8A (FOR GENERAL MOLARS)
RDCMW8AX

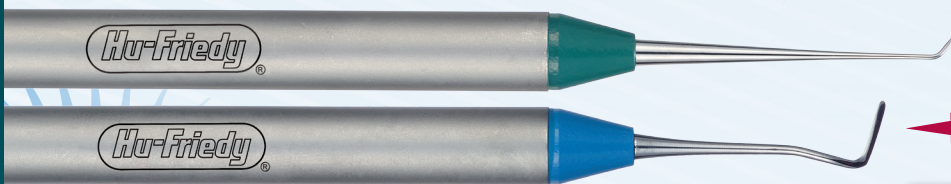

BLACK LINE RUBBER DAM CLAMPS

The dark coating on these clamps creates an intense contrast, providing a clear intraoral visibility

The coating also helps to decrease light reflection and glare

COMPOSCULP INSTRUMENTS

DIETSCHI COMPOSCULP#1/2
PFIDD1/2

DIETSCHI COMPOSCULP#7/8
PFIDD7/8

Hand-crafted with Immunity Steel® alloy, a blend of steel alloys which provide strength and corrosion resistance

Highly polished working ends resist sticky restorative materials

Color coded cones for quick instrument identification

Most implants are all the same. Until now.

AnyRidge[®] IMPLANT SYSTEM

AnyRidge[®] Implants deliver better outcomes faster, along with significantly improved chairside production and patient satisfaction. Once dentists try AnyRidge, they never go back. Here are the reasons why.

- 1 The patented knife-thread design and XPEED[®] surface treatment allow you to load and finish faster.
- 2 You can match the thread diameter to bone density for maximum stability.
- 3 AnyRidge procedures require fewer office visits so you can perform more cases.
- 4 AnyRidge has 10 diameters and a single connection, which means less inventory and easier procedures.
- 5 AnyRidge preserves cortical bone.
- 6 The biological s-line curve design provides amazing esthetic results.
- 7 The unique 5-degree morse taper prevents screw loosening.

- » View your GAIN™ Dollar balance anytime in your GAINSpeed™ account or contact your Goetze Dental Sales Representative.

Spend \$2500	Receive \$100 GAIN Dollars
Spend \$5000	Receive \$200 GAIN Dollars

Ask your rep for additional details.

REDEMPTION INSTRUCTIONS:

Create a coversheet indicating the amount of GAIN Dollars you qualify for and fax the cover sheet and a copy of the qualifying order to 800-552-7791.

* Merchandise order must be placed on a single order (combining orders to reach qualifying totals is not permitted). Subtotal of merchandise order must be equal to or exceed qualifying total prior to sales taxes and shipping. Orders must be placed between January 1 and March 31, 2018. Merchandise does not include the following: teeth, handpieces, drop ships, equipment and/or technology with the exception of ultrasonic inserts. GAIN™ Dollars will be applied to customer account within 30 days of receiving faxed copy of qualifying order. All qualifying orders must be redeemed no later than April 15, 2018. Multiple orders accepted throughout the promotional period.

* GAIN™ Dollars acquired in 2018 will expire March 31, 2019. A maximum of 25% of your equipment purchase may be funded with GAIN™ Dollars. Goetze Dental reserves the right to change or end this promotion at any time without notice.
