# 3DEMAX

## PRODUCT DESCRIPTION

The 3Dmax is a compact high-precision, high-speed 3D printer with a wide range of 3D dental applications such as surgical guides, mouth guards, occlusal splints, crowns and bridges, models and more. Its patented “Force Feedback” technology accelerates the printing process by up to 50% and advanced RFID technology ensures reliable, automatic identification of resins. Each layer is printed with digital light processing (DLP) technology at 385nm.

## TECHNICAL DATA

Size (width/depth/height)	335 x 349 x 541 mm
Build area	130 x 75 x 90 mm
Max. workpiece height	90 mm
Native pixel resolution	+ / - 34 µm
Connections	WLAN, TCP/IP, USB
Weight	approx. 33 kg

## DIGITAL ACCESSORIES

The digital accessories facilitate the printing, washing, curing and post-processing making the process easy, cleaner and safer to handle.

## FEATURES & BENEFITS

- High-speed precision processing
- Easy and user-friendly system
- Large build plate for multiple device production
- Software supported validated workflow
- Indicated for a wide range of 3D dental applications
- Accepts all standard STL files
- RFID technology for automated material identification

## TECHNOLOGY

### INFORMATION TECHNOLOGY FOR THE PRIVATE DENTAL PRACTICE

Dental practices face unique challenges with information and technology. Making sure dental practice equipment and technology are working in harmony is a crucial part of keeping your practice thriving.

Goetze Dental's Information Technology Team specializes in integrating dental equipment and technology and supporting the dental IT environment. Goetze HelpDesk Agents are experts in Dental Technology HIPAA compliance. As a full-solution dental practice IT provider, we provide both stand-alone solutions and managed services for private dental practices in the Midwest.

→ Learn more at [goetzedental.com](http://goetzedental.com) or call 800.692.0804, option 7 for a FREE IT Practice Evaluation.

 Welcome to the family.

## ABOUT

Goetze Dental is a family-owned business serving private dental practices just like yours since 1884.

We work to understand your goals and dreams and strive to provide the best dental supplies, equipment, technology and service.

We believe the best patient care is delivered in the private practice.

### OUR COMMITMENT TO PRIVATE PRACTICES

100% of our energy and resources will continuously center on the products and services we offer to the privately held dental practice through integrity, education, innovation and customer service.

We stand united with the artists, the scientists and the explorers of the dental community, whose interest in providing exceptional patient care never fades.

## SUPPLIES

### DENTAL SUPPLIES

As a clinician, you are driven to provide the best care possible for your patients. Choosing dental supplies is a vital component in that care. We partner with the top manufacturers in dental so you have the products you need, when you need them.

	<b>Ea \$101.98</b>

## Dry Tips

Advance Parotid  
For optimal moisture control

Advance Parotid is placed directly over the open ducts of the parotid gland where saliva is optimally absorbed, allowing a more drier working area. Its super absorbent foam material traps unwanted moisture, facilitating drier fields for impression taking, cementation and filling procedures. Advance Parotid's super absorbent capacity keeps moisture control even when it is fully saturated. It is made of smooth soft materials that provide maximum patient comfort throughout any treatment.

Packages of 50 pieces.  
Normal secretion: 0.25-0.35 ml/minute. Stimulated 1-3 ml/minute.  
For adults two Advance Parotid and one big Advance Sublingual absorb about 16 ml of saliva during a 30 minutes treatment.

4 reasons to use Advance Parotid

1. Super absorbent
2. Dry dentistry
3. Soft and gentle
4. Improved properties

### Box/50

Large 50x43x2 mm, expand size: 50x43x10 mm.....	<b>584610</b>
Small 40x36x2 mm, expand size: 40x36x10 mm.....	<b>584609</b>
	<b>Ea \$14.00</b>

Ideal For:

- Occlusal registration
  - Copying transfers
- Primary impressions with bite trays

## High Performance Bite Registration Material

Formulated to have a light, mousse-like consistency ideal for occlusal registration, copying transfers and primary impressions with bite trays. Our material has excellent durometer or hardness preventing distortion in disposable trays, specifically the "triple trays". Unique our Bite Registration approaches zero resistance allowing for unmodified natural movement of the jaw. The non-flowing, thixotropic formula stays in place and will not drip, run, or sag.

### Bite Registration Kit w/Tips - 50ml

Each pack contains (2) 50ml cartridges & (6) 6.5mm mixing tips

# SonicTouch

Rechargeable Sonic Power Toothbrush

**Advanced Sonic Cleaning Technology**

Produces 40,000 brush strokes per minute for a powerful dynamic cleaning.

**2 Minute Auto-Timer**

Built-in timer to ensure dentist recommended brushing time.

**Base Charging Indicator**

Built-in interval timer helps you brush each area of your mouth evenly.

**Waterproof Design**

Protection from direct contact from water, spills or splashes.

**30 Second Interval**

Built-in interval timer helps you brush each area of your mouth evenly.

**4 Brushing Modes:**

Clean, Soft, Whiten, Massage

Choose from Clean, Soft, Whiten, or Massage modes to cater all of your oral care needs.

## SonicTouch

Rechargeable Sonic Power Toothbrush

Advance SonicTouch technology provides a powerful dynamic cleaning action that helps to keep teeth and gums healthy by removing plaque.

This technology provides effective stain removal which helps to brighten teeth and restore them to their natural whiteness.

- 2 Minute Auto-Timer, 40,000 brush strokes per minute
- 30 second interval timer helps you brush each area evenly
- Base charging indicator
- Waterproof design
- 4 brushing modes: clean, soft, whiten, massage
- 3 brush heads
- 1 year warranty

SonicTouch Toothbrush ..... **578048**  
Ea **\$45.83**

## SonicTouch Refill Brush Heads

The rubberized brush head is designed to protect tooth enamel. The brush conforms to the contours of your teeth for effective, deep cleaning. High quality DuPont bristles promote naturally whiter teeth by gently polishing off surface stains, end rounded.

# Optimize Tissue Recovery Time with an Anti-Bacterial Endodontic Sealer

Advance Dental Products **Bioceramic Endodontic Sealer** combines the proven advantages of **MTA (Mineral Trioxide Aggregate)** with a superior canal obturation product. Our bioceramic sealer is as biological as the actual pulp tissue, and is engineered to penetrate, fill, and seal main and lateral root canals. The 13% MTA based sealer maintains an optimal pH, which elicits anti-bacterial effects and encourages new tissue formation and recovery.

- Provides rapid recovery of tissue without causing inflammatory reaction
- Avoids tooth stain and discoloration; eugenol and bismuth oxide free
- Easy to use dual syringe automix
- Easy removal for retreatment
- No need for low temperature gutta percha cone use standard heat settings for warm vertical
- Working Time: 23 minutes, Set Time: 130 minutes

Up to  
**20% - 40%**  
savings over comparable  
leading brands

## Work with Advance Taper and Advance Taper HT NiTi Rotary Files

### Tri Auto ZX2

by Morita

- » Cordless micromotor with built-in apex locator
- » Apical patency by rotary instrumentation
- » Now possible with rotary files as small as 10#
- » Observe the file tip position with apex locator function

577194 - Tri Auto ZX2

EACH  
**\$2,399.00**

### Endo-Mate TC2 Cordless Endodontic Micromotor

by NSK

- » Cordless endodontic handpiece with torque control
- » Large LCD panel
- » Access friendly Key, Auto Reverse and Alarm Function
- » Apex locator capability
- » Contains: MP-F16R Head, Motor, and Charger

571894 - Endo-Mate TC2 Cordless Endodontic Micromotor

EACH  
**\$1,378.00**

## More Flexibility for Half The Cost

- Same sizes, lengths and tapers enable you to use the same protocol or technique you use with Vortex™ Blue and Edge Sequel™ Sapphire file systems
- Creates reproducible access and predictable canal patency
- Increased torque strength for safe and predictable canal navigation while the unique design enhances tactile experience
- Guide files polish dentin surfaces for easier identification of hidden canals

## NOW AVAILABLE

### Advance LATEX Exam Gloves

Made of Natural Rubber Latex

Engineered to be slightly thinner for superior tactile sensitivity. Online chlorination provides superior gripping ability and results in very soft gloves with a clean white color. Excellent donning properties and comfort.

- » Micro-Chlorinated for a Softer Feel
- » Textured Finish for an Improved Wet/Dry Grip
- » Low Modulus for a Softer, More Comfortable Fit
- » Low Protein for Reduced Chances of Latex Allergic Reactions
- » 100 gloves per box
- » Lower cost per glove
- » Incredible Elasticity and Comfort
- » Stronger and thinner than other latex exam gloves

**\$9.95**

### Advance Ultra Black 3.0 Nitrile Exam Gloves

Powder-Free

Ultra Black 3.0 the culmination of decades of medical glove evolution. This nitrile glove is thinner than other gloves, but it is stronger and far more elastic than normal nitrile gloves. The softer, more relaxed formulation with its ability to reduce muscle fatigue is ideal for dental professionals who find themselves wearing gloves for prolonged periods. Incredible elasticity and comfort in a stylish black color.

- » ThinFilm for Increased Tactile Sensitivity
- » Low Modulus for a Softer, More Comfortable Fit
- » Textured Finish for an Improved Wet/Dry Grip
- » Non-Latex for No Risk of Latex Allergens
- » 200 gloves per box
- » Lower cost per glove
- » Incredible Elasticity and Comfort
- » Stronger and thinner than other nitrile exam gloves

### Alginate Substitute

An A-silicone replacement impression material that is ready to use and requires no messy mixing of powders and liquids. Ideal for preliminary impressions, orthodontic and study models and provisional and temporary impressions. Dimensionally stable when cured, eliminates the need to pour immediately and able to do multiple pours without loss of accuracy. Can be disinfected using standard methods..

### 50mL - Pkg/8

Fast Set (380mL)	1:15	1:00

### VPS Impression Material - Putty

This hand kneadable addition cure silicone material is an ideal tray material for a 2-step putty/wash technique. This easy to mix, non-oily material when cured hardens to a high durometer which helps resist distortion and provides excellent hydraulic force when combined with a light body material.

Putty Kit contains:

- 300 mL Base Jar
- 300 mL Catalyst Jar.

### 300mL

Putty Kit (Fast Set) ..... **579988**  
Pack **\$45.68**

	Work Time	IO Set Time

### VPS Impression Material

A hydrophilic impression material with super wetting agents that improve wettability resulting in a highly accurate impression. Excellent tear strength and dimensional stability also help to reduce the chances for distortion. Available in multiple viscosities, flavored and non-flavored in both fast and regular set.

**Rubber Dam**

Advance Dental Dams enable isolation of specific areas of the teeth and gums during treatment. They improve infection control, visibility and cleanliness of the working area and patient experience.

Advance Dental dams are available in two main materials options based on natural rubber latex and latex free (synthetic natural rubber). Our latex free dams use a specially synthesized version of the natural rubber molecule to closely match the physical properties of natural rubber with no proteins. Available in ready-cut squares for easy use with medium thickness of 0.23mm (medium). For most practitioners and applications medium is the preferred weight.

## Protect It Emergency Medical Kit by Protect It Dental

Dimensions 15.5" x6"x10.5"  
Weight 9 lbs

### Never Worry About Expired Emergency Medications Again

Most dental practices struggle to maintain their Emergency Medical Kit. Missing or expired medications create potential liability for your practice in the event of an emergency or audit. Buy a new Kit or allow us to takeover your existing kit and never worry about expired emergency medications again.

### Expired Medications are a Thing of the Past Let our auto-replenishment program do all the heavy lifting.

Pay for new medications as they ship, receive notifications pre-shipment, no commitments and no more worries. We include a waste disposal bag for expired medications with each replenishment order – postage pre-paid. Our 3rd party partner safely disposes of expired medications and provides proof of destruction.

### Need a New Kit?

Our Kits are designed to bring order and calm to a chaotic situation. Each Kit includes the seven essential medications and is consistent with ADA and JADA recommended guidelines. Choose from one of our four Kits based on your practice profile.

### Already Own a Kit?

Onboard your existing medications for future tracking and replenishment by scanning the QR code and launching our EMK Wizard. The setup process is quick and easy (usually less than 8 minutes) and our customer service team is always just a chat or phone call away if you have questions.

# CaviWipes™ 2.0

by Metrex

## Surface Disinfectants

From the leading dental wipe brand comes the next generation, CaviWipes 2.0. With a 2-minute contact time and the material compatibility you trust in CaviWipes, CaviWipes 2.0 is optimized to meet your infection prevention needs today and tomorrow.

CaviWipes are the only cloths proven to kill both TB in 5 minutes and HBV in 3 minutes. CaviWipes are disposable towelettes pre-saturated with CaviCide Surface Disinfectant Cleaner. They are convenient, durable, nonwoven, nonabrasive towels that won't bunch up during use. They offer better surface contact and fluid capacity than other wipes

- » 2-minute universal contact time
- » 1-step cleaner and disinfectant
- » Trusted material compatibility
- » For use against Emerging Viral Pathogens

## Prepared for Today's and Tomorrow's Pathogens

Qualifies for the EPA's Emerging Viral Pathogens claim for all virus types (enveloped, large and small non-enveloped viruses) to meet current and potentially future infection prevention needs

## 2-minute Contact Time

2-minute universal contact time for bacteria, viruses, and pathogenic fungi

## Enhanced Efficacy Claims

Effective against over 40 pathogens including Norovirus, SARS-CoV-2 and Candida auris for added confidence in preventing healthcare associated infections.

## Excellent Material Compatibility

Compatible with hard, non-porous surfaces commonly used in clinical settings

## Easy-to-Use Label

Makes it quick and easy to find critical information on efficacy, compatibility, and more

## CaviWipes™ 2.0

583222 - Std Size (6" x 6.75") - 160 towelettes per canister ..... \$17.58/Each

# CaviWipes HP

## Surface Disinfectant

by Metrex

CaviWipes HP is the newest member of the trusted CaviWipes family providing a fast 1-minute universal contact time from an alcohol-free hydrogen peroxide formulation that fully qualifies for the EPA's rigorous Emerging Viral Pathogen Claim on EPA List N1. The High Performance disinfection protocol offered by CaviWipes HP protects both patients and staff.

## Simple

Caviwipes HP offers a universal 1-minute contact time against all listed pathogens, offering simplicity and peace of mind for every application. The new green top opens and closes more easily and securely, and dispenses wipes with precision, helping to reduce waste.

## Alcohol-Free

CaviWipes HP provides a friendly alternative for those who prefer not to use alcohol-based wipes, and our HP formulation provides better cleaning efficacy than alcohol-based products.

## Fast

Our 1-step\* and 1-minute universal contact time reduces waiting time for disinfection and increases staff efficiency.

## Effective

In addition to providing effective disinfection against all 50 listed pathogens including MDRO's (Multidrug Resistant Organisms), CaviWipes HP is qualified for the EPA's rigorous Emerging Viral Pathogen claim, protecting you against future pathogens as well.

## CaviWipes HP (6" x 6.75")

# BEST OF 2022

## MI Paste® ONE Kids

by GC America

MI Paste ONE is the newest member of the MI Paste® Family as a two-in-one application (toothpaste and MI Paste Plus®) containing RECALDENT™ (CPP-ACP) and fluoride, in a cool mint flavor. This product presents another way to treat sensitivity, remineralize tooth enamel and prevent white spot lesions. Imagine a simple, single step for treatment and cleaning. As a replacement for your current toothpaste, it gives you the same power of MI Paste Plus®, but in a single application. Now, rather than brushing first then applying MI Paste® and/or MI Paste Plus®, you'll simply brush with MI Paste ONE.

MI Paste®, MI Paste Plus® and MI Paste ONE are the only products for professional use containing the active ingredient RECALDENT™ (CPP-ACP), a special milk-derived protein that has a unique ability to release bio-available calcium and phosphate (and fluoride in MI Paste Plus® and MI Paste ONE) to tooth surfaces. When it comes to maintaining a healthy smile, these key ingredients can make a big difference in overall health.

Use MI Paste ONE for:

- » hypersensitivity
- » remineralization
- » tooth erosion and wear
- » sensitivity from whitening
- » preventing caries and white spot lesions

PACK  
**\$169.60**

## EXA Advanced™

Hydrophilic VPS Impression System

by GC

EXA Advanced™ VPS impression materials give you handling, accuracy, thixotropicity, elastic recovery, stackability and pourability that are second to none. The high hydrophilicity of EXA Advanced™ VPS materials mean they flow uniformly, eliminate voids and capture details more precisely. EXA materials offer virtually no shrinkage and are so dimensionally stable that an accurate model can be poured up to two weeks after the impression has been taken. EXA Advanced™ VPS impression material in Fast Set and Normal Set, flow well, and have the elastic recovery characteristics and have increased tear strength over EXAMIX™ and EXAFast™, that make the first impression a lasting impression.

- » Higher tear strength
- » Consistently accurate
- » No voids, no folds
- » Exceptional value, cost effective
- » Consistently great impressions every time

## G-aenial A'CHORD™

### The Advanced Universal Composite with Unishade Simplicity by GC

G-aenial A'CHORD™ is designed for simplicity, giving dentists a versatile universal composite for both anterior and posterior restorations. Five core shades provide the esthetic of all 16 classic VITA shades. Achieving first-class esthetics with reduced inventory and quick polishing makes G-aenial A'CHORD™ a cost-effective and time saving material for any practice. Handling has been optimized and high durability is delivered via GC's proprietary blend of Full-Coverage Silane Coating (FSC) and High-Performance Pulverized CERASMART® (HCP) filler.

G-aenial A'CHORD™ features natural fluorescence, created by its unique filler technology that mimics natural light reflection. The result is a beautiful restoration that is invisible in any light, including UV and near-UV light. Coupled with G-aenial

A'CHORD™'s high gloss which is achieved with minimal polishing, you can provide your patients with a truly confident smile in a fraction of the time required for other systems. For more challenging cases, we offer extended cervical, opaque, enamel, and bleach shades that may be used to layer to provide an exact esthetic.

# BEST OF 2022

## Venus® Bulk Flow ONE

by Kulzer

Venus Bulk Flow ONE is a flowable, one shade bulk filling solution for everyday cases that offers an extraordinary color adaptation in one single shade.

Venus Bulk Flow ONE is the first flowable one-shade bulk-filling composite without the need for an additional capping layer. With 4 mm increments instead of 2 mm for universal composites. Venus Bulk Flow ONE blends seamlessly into the surrounding dentition, independent of tooth shade, enabling restorations to simply disappear. Dentists obtain durable restorations with Venus Bulk Flow ONE due to low shrinkage stress, high flexural strength and wear resistance. Its superior high radiopacity allows for safe diagnosis.

### Product Application

Class I, II, III and V direct restorations, Repair of direct and indirect restorations in combination with a suitable adhesive, splinting loosened teeth resulting from trauma or periodontal associated events, extended fissure sealing.

### Venus® Bulk Flow ONE

- 584765 - Venus bulk flow syr 1 x 2g one ..... **\$50.64/Box**
- 584766 - Venus bulk flow one plt 2 x 10 x 0.20g one ..... **\$134.78/Box**
- 584767 - Venus bulk flow value – kit syringe ..... **\$379.83/Box**
- 584768 - Venus bulk flow one value – kit plt ..... **\$404.34/Box**

### One shade

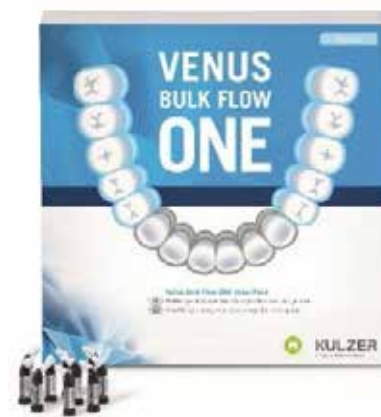

Blends seamlessly into the surrounding dentition, independent of tooth shade.

### Efficient handling

Cavities are filled quickly and easily with increments of 4 mm instead of 2mm without the need of additional capping layer.

### Long-lasting restorations

Low shrinkage stress, high flexural strength and high wear resistance ensure durable restorations that withstand high mastication load in the posterior region.

## CanalPro® EndoUltra

by Coltene

The CanalPro® EndoUltra Cordless Ultrasonic Activator harnesses ultrasonic technology in a compact, cordless handheld device. EndoUltra is the only cordless activator unit capable of generating the tip frequency (40,000 Hz) required to create sufficient acoustical streaming and the cavitation necessary to effectively clean, penetrate and remove vapor lock. Studies continue to show that using Ultrasonic devices during irrigation enhances antibacterial and tissue dissolving ability of irrigants.

### CanalPro EndoUltra

## ZenFlex™ NiTi Rotary Shaping File System for Endodontic Specialists

by Kerr

ZenFlex combines controlled memory, greater resistance to torsional strength and cyclic fatigue, and minimal invasiveness to reduce file separation and transportation.

Designed with Kerr's proprietary size-specific heat treatment, ZenFlex has exceptional flexibility, and stays in its pre-curved shape for easier insertion into complex canal anatomies. Also, through its maximum flute diameter design, ZenFlex allows for increased preservation of structural integrity of the tooth.

Available in a comprehensive offering in tapers and sizes and works with many different endo motor systems and handpieces.

# VacuLUX

## HVE ISOLATION SYSTEM

Now available from Goetze Dental, add an instant isolation system to any HVE valve in seconds with the VacuLUX™ isolation adapter and autoclavable mouthpieces.

### Diverse Compatibility

Mouthpieces & adapters universally fit Dryshield & Isolite systems

### Autoclavable

Designed with Simple-Sterile™ technology for **safe & efficient** autoclavability

### High-Volume Evacuation

**Continuous, uninterrupted suction** for hands-free aerosol & spatter control

### VacuLUX™ HVE Adapter

\$249/ea

Lightweight, durable & autoclavable **aluminum construction**. Attach Isolite, Dryshield or VacuLUX™ isolation mouthpieces to your existing HVE valve for instant isolation at any chair.

### VacuLUX™ Isolation Mouthpieces

\$100/4 pk

One-piece **autoclavable** mouthpieces compatible with Isolite, Dryshield and VacuLUX™ brand isolation systems. Designed for quiet comfort and easy sterilization in four sizes.

Fits Isolite & Dryshield Systems

### VacuLUX™ Chairside Isolation System

\$448/ea

Add an additional HVE valve chairside with this isolation system which includes one VacuLUX™ HVE isolation adapter, an HVE line Y adapter, 5.5 feet of lightweight vacuum line & the compact **VacuValve™ HVE Valve**.

### VacuLUX™ Portable Isolation System

\$398/ea

Move from room to room with everything you need for isolation. This portable system includes one VacuLUX™ HVE isolation adapter, and the lightweight, portable **Feather Flex™** hose kit that connects to any standard HVE valve in any operatory.

# BEST OF 2022

## Panavia™ Veneer LC

by Kuraray

Light-Cure Formulation for Esthetic Ceramic Restorations

CHALLENGING TASK, GREAT SOLUTION

It is possible to reduce the time and effort involved in veneer placement with a cement that supports homogeneous cement application, smooth veneer positioning, easy excess removal, and quick polishing. "PANAVIA™ Veneer LC" offers all of these features, while giving the clinician all the control thanks to the nano cluster technology.

Panavia™ Veneer LC is indicated for permanent cementation of veneers, inlays and onlays.

"PANAVIA™ Veneer LC" is a light-cure, resin cement with excellent color stability, high wear resistance, provides ample working time, and offers fast and easy clean up. Indicated for permanent cementation of:

- » Veneers
- » Inlays and onlays with less than 2mm in thickness.

**kuraray**

## Biodentine™ XP

by Septodont

Optimal Solution for Vital Pulp Therapy

Based on 10 years of research, 1000 publications, and over 5 million teeth saved, Biodentine XP provides clinicians with an optimal solution for vital pulp therapy; it is a highly-pure bioactive crown-to-root restoration system indicated for dentin replacement treatments like deep caries, pulp exposure, pulpotomies, and root repair.

For simplified handling and dispensing, the new system includes Biodentine material in a new all-in-one cartridge of powder and liquid, a proprietary mixer to ensure perfect consistency every time, and an applicator gun for direct placement into the tooth.

### Features and Benefits:

- » Biodentine utilizes ABS Technology™ creating the most highly-pure tri-calcium silicate and providing unique bioactive properties that improve treatment outcomes (high bioactivity, pH, biocompatibility & sealing ability)
- » All-in-one powder and liquid cartridge for less mess and simplified preparation
- » Two volumes of cartridges, XP200 and XP500, designed to reduce material waste. The smaller XP200 cartridge for pulp capping, small restorations, and endo indications. The larger XP500 cartridge for deep caries, bulk-filling, and quadrant restorations.
- » A bendable tip for easy placement directly into the tooth with the use of the XP applicator gun.
- » A compact mixer designed for perfect mixing at 6200rpm; provides an easy and consistent mix every time

### Biodentine XP

## Scotchbond™ Universal Plus Adhesive

by 3M™

3M™ Scotchbond™ Universal Plus Adhesive is the first radiopaque universal adhesive, minimising the risk of X-ray misdiagnosis and invasive overtreatment. It provides gold standard adhesion to all dental substrates, including glass ceramic, without the need for a separate primer, silane or activator. It supports minimally invasive dentistry by bonding and sealing caries affected dentine. The formulation is free of BPA derivatives like BisGMA. And there is virtually no post-operative sensitivity.\* Together with 3M™ RelyX™ Universal Resin Cement it forms a fully aligned system, offering excellent bond strength for virtually all dual-cure resin cement indications.\* \*3M Internal data.

- » First radiopaque universal adhesive reducing the risk of X-ray misdiagnosis and overtreatment
- » Universal adhesive suitable for all direct and indirect bonding indications and all etching techniques
- » Virtually no post-operative sensitivity
- » Gold standard adhesion to all tooth and restoration substrates without separate primers, silanes or activators
- » Free of BPA derivatives like BisGMA
- » Bonds and seals caries affected dentine, supporting minimally invasive dentistry to maximise preservation of natural tooth
- » Fully aligned system with 3M™ RelyX™ Universal Resin Cement
- » Available in a streamlined flip-top vial (up to 200 applications) or unit dose for efficient hygiene management

## 3M™ RelyX™ Universal Resin Cement

by 3M

3M™ RelyX™ Universal Resin Cement comes in a unique self-sealing automix syringe with Micro Mixing Tips that minimize cement waste. Together with 3M™ Scotchbond™ Universal Plus Adhesive it forms a fully aligned system that covers virtually all adhesive and self-adhesive cement indications with excellent bond strength, easy excess clean-up and high esthetics. This two component system enables simplified procedures for less stress and more savings.

- » Universal dual-cure resin cement for virtually all adhesive and self-adhesive indications
- » Unique self-sealing, hygienic automix syringe with minimized cement waste
- » Outstanding self-adhesive bond strength in both self-cure and light-cure
- » Further enhanced bond strength to all substrates by 3M™ Scotchbond™ Universal Plus Adhesive
- » Fast and easy excess clean-up
- » High esthetics by color-stable, fluorescent shades
- » Virtually no post-op sensitivity
- » Simplifies workflows and reduces stock - easier to train, easier to use, saves space, time and money

**3M** Science.  
Applied to Life.™

**3M™ RelyX™ Universal Resin Cement** and  
**3M™ Scotchbond™ Universal Plus Adhesive**

# The two that can do it all.

3M™ RelyX™ Universal Resin Cement works both as a standalone, self-adhesive cement — and as an adhesive cement together with 3M™ Scotchbond™ Universal Plus Adhesive. The adhesive serves as an universal primer for all materials and covers all direct and indirect bonding indications.

Eliminate the hassle and confusion of multiple resin cements, primers and adhesives and simplify your direct and indirect restorative workflows. Less products to keep on stock and replenish. Saves space, time and money.

### 3M™ RelyX™ Universal Resin Cement

- Easy excess clean-up
- High esthetics with 4 fluorescent shades: TR, A1, A3O, WO
- Superior self-adhesive dentin bond strength

### 3M™ Scotchbond™ Universal Plus Adhesive

- First radiopaque all-in-one universal adhesive
- Further boosts bond strength in self-etch, selective-/total-etch technique
- Universal primer for all restorative materials

## 3M™ Filtek™ Universal Restorative

by 3M

A universal composite featuring NaturalMatch technology creates beautiful, natural looking restorations that blend in with surrounding dentition, providing a chameleon effect. 3M's True Nanoparticles provides excellent wear resistance and polish retention.

- » NaturalMatch Technology (A blend of nanofillers and proprietary monomers)
- » Creates beautiful, natural restorations with less shades
- » Blends to surrounding dentition - Chameleon effect
- » Excellent, creamy handling
- » Designer shades match the VITA classical and bleach shades\*
- » AFM Monomer provides stress relief, Low-shrinkage stress
- » Long-lasting polish
- » Designer shades cover most patients
- » 2mm depth of cure

Introducing  
**Clear Comfort**  
ALIGNERS

Invisible  
Comfortable  
Convenient

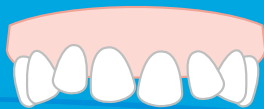

## HOW DOES IT WORK?

Clear Comfort Aligners is an innovative technology that allows you to straighten your teeth without the appearance of braces. It utilizes a digital 3D treatment plan and a series of custom-made clear aligners to gently and gradually adjust your smile.

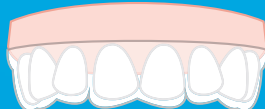

## WHY IS IT BETTER?

Clear Comfort Aligners are virtually invisible and allow you to smile confidently and comfortably throughout your treatment.

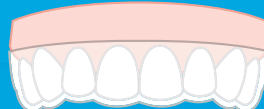

Clear Comfort Aligners apply less force on your teeth than braces. Because of their smooth

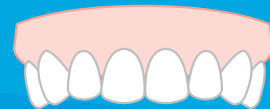

First a digital scan or dental impression is created of your teeth.

A series of custom-fitted Clear Comfort Aligners are made to your specifications.

The Clear Comfort Aligner system gradually straightens your teeth and corrects your bite as you wear them.

Once you have completed the Clear Comfort Aligner System, you will be left with a brilliantly corrected smile.

# Advancing the Brilliance of Your Smile

surface, they tend to be more comfortable on the inside of your cheeks.

**Clear Comfort Aligners** are removable so you can take them out to eat, drink, brush, & floss as you normally would. You spend less time & have fewer visits at the doctor's office.

## IS IT RIGHT FOR YOU?

You are a candidate for **Clear Comfort Aligners** if you are an adult or teen and have any of the following conditions:

- ✓ Crowded Teeth
- ✓ Unattractive Gaps
- ✓ Overbite
- ✓ Underbite
- ✓ Crossbite

For more information go to:  
[www.clearcomfortaligners.com](http://www.clearcomfortaligners.com)

A-dec  
Operatory  
Equipment

## TOWNIE SHINES THE SPOTLIGHT ON TWO NEW CATEGORIES.

Thank you for recognizing A-dec for two new categories and one that you've trusted for decades: operatory equipment. We appreciate your acknowledgment since 2003. You could choose anyone—and you chose us.

**We couldn't shine bright without you.**

## ENVISION MORE FOR YOUR PRACTICE

It's unspoken, but you feel it. That "at ease" reassurance of knowing that your equipment is predictable, responsive and intuitive, complementing your every skillful movement. So, you can focus on what matters most: your patient.

## ABOUT US

Goetze Dental is a family-owned business serving private dental practices just like yours since 1884.

We work to understand your goals and dreams and strive to provide the best dental supplies, equipment, technology and service.

### We believe the best patient care is delivered in the private practice.

100% of our energy and resources will continuously center on the products and services we offer to the privately held dental practice through integrity, education, innovation and customer service.

We stand united with the artists, the scientists and the explorers of the dental community, whose interest in providing exceptional patient care never fades.
