PERFECT IN FUNCTION & DESIGN

- Factory programmed dosage specifically set for each view when using ScanX® flexible phosphor plates (PSPs)
- DC technology allows constant radiation levels to ensure reliable image quality
- Choose from short (66"), medium (72") and long (84") extended arm lengths
- Right-angle/parallel technology for precise alignment
- Adjustable mA and kV levels
- Optional rectangular radiation field collimator
- Generator head handle allows precise positioning that stays in place
