

DentalEZ® Equipment
The Power of Simplicity

CORE™ & NuSimplicity™ Dental Chairs

Since 1958, DentalEZ has been designing dental chairs that provide innovation, durability and simplicity.

First, the **J-Chair®** helped usher in sit-down dentistry. Then came the **NuSimplicity** chair, with the widest range of height adjustment available. The proven durability of NuSimplicity is unmatched.

Recently, DentalEZ® introduced the **CORE** Chair to great reviews. The CORE chair is a simple to use dental chair that provides all of the features you need with a lift capacity of 450 lbs., drop down arms and cast iron and cast aluminum construction for durability. Built to last, the CORE chair simply delivers.

CORE

Legendary Comfort and Value

CORE Chair

- Double articulating headrest
- Durable hydraulic lift cylinder
- Swivel rotation with lock for added flexibility
- Optional touchpad and foot controls with programmable preset positions
- Multiple upholstery upgrades available

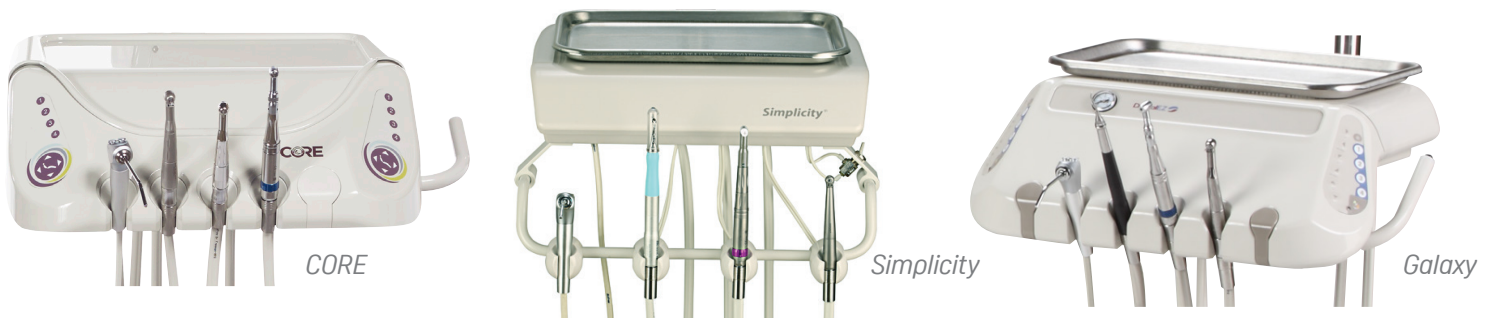

NuSimplicity Chair

- Easy to use with simple controls and presets
- Touch pads on both sides of the backrest keep controls within reach
- Adjustable height range suitable for stand-up and sit-down dentistry
- 60° Rotation allows optimal positioning for every procedure
- Optional AirGlide feature allows for repositioning of the chair in the operatory
- Multiple upholstery options available

CORE™, Galaxy®, Simplicity® Delivery Units

DentalEZ® prides itself on providing Delivery Units that are simple, easy to use and reliable.

When we design, we think about simplicity and clean lines, products that are easy to clean and maintain. We believe that a simple, easy to use and dependable delivery unit maximizes productivity and significantly reduces downtime.

Designed for Efficiency and Simplicity

CORE Delivery Unit

- Choose from fixed chair-mounted or Magellan left/right version
- Secure tray placement
- Accessible control block and standard components for simple maintenance and less downtime
- BioFree tubing on all internal water lines and handpiece tubings
- Air gauge for pressure monitoring
- Brake handle release
- Optional integrated dual-access touchpads

Galaxy and Simplicity Delivery Units

- Choose from fixed chair-mounted or Magellan left/right version
- Choose from 3 styles of control heads designed for up to 4 handpieces (3 standard) and 2 static hangers (1 standard)
- Includes HVE, SE & syringe
- BioFree tubing on all internal water lines and handpiece tubings

CORE™, EverLight®, Simplicity® Dental Lights

DentalEZ is focused on providing the best in operatory lighting.

Our **CORE LED Light** features hands free light adjustment, durable LED bulbs and simple positioning, using the autoclavable handles. The crisp focus and 3 light intensities ensure you have all the light you need, no matter what the procedure. Designed with value, simplicity and durability in mind, the CORE LED brings it all into focus.

Our EverLight CRI product now features improved CRI (Color Rendering Index) that ensures more accurate color matching. It's a 23% improvement in color rendering over the original EverLight.* It's an improvement to an already trusted product.

CORE LED Light

Precision Lighting

CORE LED Light

- Convenient hands-free adjustment
- Removable, autoclavable handles can be repositioned 360°
- Provides a crisp focus that doesn't stray into patients' eyes
- Allows fast, easy cleaning

EverLight LED

- Provides precise lighting similar to natural daylight
- Stays cool without the need for reflectors or fans
- Nine color and intensity settings, including color matching
- Reduces energy costs and lasts longer than halogens
- Improved CRI rating

Simplicity Halogen Light

- Large focal range from 20 to 40 inches from the shield
- Light pattern integrity provides consistent illumination
- 3-axis adjustment allows for a wide range of positioning

*Based on DentalEZ Testing.

Generation™ & Simplicity® Dental Stools

DentalEZ knows that dentists, hygienists and assistants in the dental operatory rely on their stools to be comfortable, supportive and stable.

Dental procedures can be physically demanding, with wide, stable bases, adjustable back supports, and adjustable heights, DentalEZ Stools give users comfort. It's that simple.

Comfort, Support and Stability

Complete Mobility

- Allows simple movement for better oral access

Adjustable Height

- Ideal for multiple operators and procedures

Stable Base

- Broad base with five casters improves stability during position changes

Back Support

- Adjustable back support for balanced posture
(optional on assistant's stool)

Built to Last

- Durable construction for years of reliable use

Why DentalEZ® Equipment?

Since 1958, DentalEZ® Equipment has been at the forefront of developing simple, easy to use products that make work easier and more comfortable for dentists, hygienists and patients. That tradition continues with our new CORE™ Chair. Designed to be easy to use, simple to adjust, and with all of the features you would expect, CORE provides everything you need at a price that makes the choice easy. Simply put, it's a great value.

Our NuSimplicity™ Chair has been the choice of dental chairs for large DSOs, Institutions and Government, as well as individual dentists. The simple design, coupled with superior height adjustment range and lift capacity sets this chair apart. With a proven track record of success with our largest customers, NuSimplicity is the choice when you want to combine power with simplicity. When you think DentalEZ® Equipment, think proven design and value.

DentalEZ Integrated Solutions is committed to providing real solutions to everyday challenges in oral healthcare by uniquely combining innovation focused on simplification and efficiency in value based products and outstanding customer service and support.
