A Collaborative Approach to Endodontics and Restorative Dentistry

With Dr. Chad Duplantis & Dr. Ryan Walsh

Endodontics is here to stay. We should all be aware of how to properly treat our patients and know when to refer. We should also be aware of what's next when a tooth fails or endodontics isn't an option. Throughout this course, we will discuss endodontics from diagnosis to a final restoration. An endodontist and restorative dentist collaborate throughout the day to enhance your clinical acumen.

Course Objectives:

- Assess the endodontic patient
- Understand the diagnostic protocols, anesthetic protocols, and treatment protocols for endodontics
- Visualize the necessity of an appropriate buildup
- Understand the restorative protocols from the endodontic handoff including prep design, materials, and cementation of indirect restorations

Chad C. Duplantis, DDS, FAGD

Dr. Duplantis has been in private practice since 2000 in the North Fort Worth, Texas. He treats all ages with an emphasis on restorative and aesthetic dentistry. Dr. Duplantis has been a member of several Aesthetic and Restorative Continuums. He has written and published several articles regarding restorative implantology, CBCT, impressing, adhesion and materials, digital dentistry, and workflows.

Ryan M. Walsh, DDS, MS

For over a decade, Dr. Ryan M. Walsh has been educating dentists and endodontists to provide the highest level of evidence-based patient-centered endodontic care. Dr. Walsh is a board-certified endodontist and maintains a full-time private practice (limited to endodontics) in Keller, Texas. As a board-certified endodontist, Dr. Walsh is abreast of the latest techniques of clinical and patient management.
