A New Generation for Cosmetic Dentistry

Delivering the Selfie Ready Smile

With Dr. Susan McMahon

Appearance and self-esteem have long been intertwined. The dental world has taken notice and we need to respond with conservative ways to satisfy our patient's desires for ideal smiles. This course will cover treatments from ultraconservative enamel enhancements and direct composite solutions to minimal prep/no prep veneers. Discover the secrets to identifying patient's cosmetic desires, learn new easy but beautiful techniques, and learn effective dialogue for case acceptance.

- Enamel enhancements: Visible White Lesion (VWL) removal, Brown staining removal, Whitening and Whitening Combination treatments.
- Direct composite bonding. Finishing techniques for beautiful surface texture and anatomy. Diastema Closure. Additive finessing of the smile. Easy Direct Composite Veneers. Gingival sculpting for framing the smile.
- Applied Smile Design. Combining individual tooth, gingival and global smile treatments.
- Minimal/No preparations porcelain veneers.

Course Objectives:

- Give confidence to recognize and assess your patients' cosmetic desires
- Develop clinical skills for comprehensively diagnosing, preparing, placing and finishing conservative restorations
- Attain step by step protocol for applied smile design for combination treatments that boost their confidence and boost your bottom line
