

Planmeca

CAD/CAM Dentistry

Implementing a new digital workflow touches many areas of your practice. Our approach is to provide a solid foundation for dental professionals and their staff members, then continually build upon this knowledge over the course of a year and beyond.

Planmeca FIT® and FIT® Plus Foundational Courses

- **Red Carpet Elements:** This 2-day course provides an essential foundation for new CAD/CAM users. This course is offered at Planmeca Digital Academy outside of Chicago or in your office.
- **Integration Training:** This 1-day course is held at your office and provides critical on-site support approximately four weeks post installation.

Planmeca Emerald™ S Only Courses

- **Scan & Send Training:** This 1-day training that takes place at your office to provide the foundation for integrating digital intraoral scanning into your practice.

Online Educational Opportunities

- **Customized Online Training:** If you or your staff require additional support on any clinical topic, we can provide customized remote training to address your practice needs.
- **Educational Webinars:** Planmeca offers a variety of webinar opportunities throughout the year on a multitude of topics from clinical applications through “how-to” demonstrations. Visit info.planmecausa.com/webinar/ or on our YouTube channel under Planmeca USA.
- **On-Demand Video Library:** Hundreds of self-paced learning videos are available any time by visiting www.planmeca.com/training/educational-video-resources.
- **Planmeca Coaching:** Customers can register for complimentary weekly webinars with our clinical trainers on a variety of topics designed to enhance their skills.

Other

- **Advanced CAD/CAM Courses:** Affiliate partner, the MOD Institute, offers advanced courses in their state-of-the-art facility in Charleston, SC. Visit TheMODInstitute.com to see the full curriculum.
- **Facebook:** Check with your local Planmeca representative for a listing of local clubs and join the Facebook PlanmecaFIT Users Group to collaborate with like-minded professionals.

Planmeca

Imaging Technology

Investing in new technology opens the door to better diagnostics and improved patient care. In order to harness the potential of this technology and get the most out of your investment, Planmeca has developed a series of courses to help our customers realize their practice goals.

Initial Training

- **Imaging Foundations:** Your initial in-office training is held shortly after installation and covers the basics of image acquisition and positioning techniques with you and your team.
- **CBCT Basics, Interpretation and Implant Workflow and CBCT Basics, Interpretation and Treatment Planning for Orthodontists:** These 2-day course are designed for both new and existing CBCT users who wish to gain an understanding of radiology, and enhance their diagnostic and treatment planning skills.
- **Advanced In-Office Training:** This 1-day course is held at your office to help integrate new diagnostic imaging protocols for better patient care.

Online Educational Opportunities

- **Customized Online Training:** If you or your staff require additional support on any topic, we can provide customized remote training to address your practice needs.
- **Educational Webinars:** Planmeca offers a variety of webinar opportunities throughout the year on a multitude of topics from clinical applications through “how-to” demonstrations. Visit info.planmeca.com/webinar/ or on our YouTube channel under Planmeca USA.
- **On-Demand Video Library:** Hundreds of self-paced learning videos are available any time by visiting www.planmeca.com/training/educational-video-resources.
- **Planmeca Coaching:** Join our 3D imaging expert and broaden your knowledge of 3D imaging in our monthly complimentary sessions.
