

RAMVAC®

The Power of Reliability

Why RAMVAC®?

RAMVAC has been a pioneer in the utility room since the creation of the first dental vacuum. RAMVAC remains today a leader in proven, tested technology in air compressors, vacuum systems and utility room accessories. If you demand the best, choose RAMVAC. Durable, tested and proven, our products embody dependability every day. With over 40 years of providing great products, service and warranties, RAMVAC delivers the confidence you need in your Utility Room. Out of sight, out of mind, RAMVAC gives you the Power of Reliability.

Badger™ LF, Bison®, Bulldog® Dry Vacuums

With power and reliability in mind, RAMVAC designed the **Bulldog**, **Bison**, and **Badger LF** dry vacuum systems. With decades of efficient, water-free dental vacuum system expertise, our RAMVAC systems are engineered to perform. RAMVAC has a variety of products to fit the needs of your practice.

Bulldog

Bison

Badger LF

Powerful Reliability

Streamlined Design

- Compact design saves space

Efficient

- High-efficiency pumps produce little mechanical room heat and low energy costs

Pump Warranty

- Revolutionary rotary vane design backed by an extended 10 year limited warranty (*Bison and Bulldog*)

Worry-Free Performance

- Water-free operation for years of service with simple maintenance and reduced water costs

Easy to Maintain

- Open frame design allows easy access for routine maintenance

Osprey™ Air Compressors

If increasing productivity while decreasing downtime is your goal, meet the RAMVAC **Osprey** Air Compressor. Dependable, quiet and simple to operate.

**INDUSTRY
LEADING
6 year limited
warranty.**

Osprey

OWL Touch On Wall Logic

The **OWL Touch** incorporates a full color, touch screen display to provide easy control and monitoring of your dental utility room. Simple, easy to understand screen layouts make navigation of this powerful device a cinch.

Demo the OWL Touch experience online at DentalEZ.com/OWL.

Devices that can be controlled with OWL Touch

RAMVAC Vacuum Units

- RAMVAC® brand vacuum units with Smart S2 controls can be easily plugged into the OWL Touch and will display maintenance notifications, fault messages and other system data. However, even non-RAMVAC vacuum units can be controlled via an OWL Interface Control attached to the OWL Touch.

Water Valves

- Any type of water valve utilizing a solenoid valve can be easily turned off and on utilizing an OWL Interface Control.

RAMVAC Air Compressors

- Osprey™ air compressors featuring Smart C2 controls are easily connected and will provide similar information to the vacuum units. Osprey compressors with a Basic control or non-RAMVAC brand compressors can also be connected via the OWL Interface Control.

Auxiliary Devices

- Any type of system that can be turned off or on with a switch can be controlled by an OWL Interface Control (*up to 10 amps*). Systems such as lighting, stereo or intercom can be attached to the OWL Touch and turned on and off either manually or with the schedule.

DentalEZ Integrated Solutions is committed to providing real solutions to everyday challenges in oral healthcare by uniquely combining innovation focused on simplification and efficiency in value based products and outstanding customer service and support.
